Report of Independent Auditors
Policy and Grant Guidelines
Trustees, Officers, and Staff
Richard King Mellon was born in Pittsburgh, Pennsylvania, on June 19, 1899, the son of Richard Beatty Mellon and Jennie King Mellon. Mr. Mellon served his country in both World Wars and in peacetime, attaining the rank of Lieutenant General, United States Army Reserve, and receiving the Distinguished Service Medal.

Mr. Mellon was the dominant figure in the financial, industrial, and civic life of his community for many years. He was president of Mellon National Bank and for twenty years Chairman of the Board of Mellon National Bank and Trust Company; as a director, he aided the growth of many of the nation’s leading enterprises, particularly Gulf Oil Corporation and Aluminum Company of America. Mr. Mellon, President and Governor of T. Mellon and Sons, inspired and led the rebirth of a great American city. His creative energies forged the Pittsburgh Renaissance, a nationally recognized architectural, civic, social, and educational venture.

In 1936 Mr. Mellon married the former Constance Mary Prosser, who served as Chairman of the Board of Trustees of the Richard King Mellon Foundation from its inception in 1947 until her death in 1980. A renowned sportsman, Mr. Mellon generously endeavored to preserve the quality of the natural environment and to protect its wildlife. Mr. Mellon died on June 3, 1970.
In 2013, the Trustees of the Richard King Mellon Foundation approved 196 grants totaling $112,958,150 and paid out commitments of $102,855,041. The Foundation’s grant-making history and ongoing grants are intended to help develop, nurture, and strengthen institutional leaders whose endeavors play an essential role in shaping and supporting the quality of life in southwestern Pennsylvania—both now and into the future.
Enhancing Education

As exemplars of an abiding commitment to excellence, Carnegie Mellon University’s (CMU) President Jared L. Cohon and the University of Pittsburgh’s Chancellor Mark Nordenberg have proven themselves, time and time again, as leaders among their peers. The Foundation is privileged to have established longstanding, meaningful relationships with each of them and wants to recognize and honor each as he steps down from his post to pursue new opportunities.

Following 16 years in office, CMU President Jared Cohon ended his tenure as the University’s eighth president in June 2013 to return to teaching engineering and public policy courses at CMU. Under his guidance, the University achieved notable success in several key areas, including international education, evidenced by CMU’s participation in global partnerships in more than 20 countries around the world. Also during President Cohon’s tenure, CMU saw increases in the size of its endowment and student body, as well as in the research dollars directed toward university initiatives. As a result of its work in academic technology transfer, CMU has created the most startup companies per research dollar spent since 2007 among all U.S. universities without a medical school. In energy innovation and usage, too, Carnegie Mellon is a proven leader. By purchasing all the power for its Pittsburgh campus from renewable energy sources, CMU ranks as one of the largest purchasers of green power among U.S. universities and colleges. Perhaps most notably, the University recently appointed Dr. Cohon the director of the Wilton E. Scott Institute for Energy Innovation, an initiative that is helping CMU advance research efforts focused on energy-related technology, public policy, and other cutting-edge areas.

In 2013, Chancellor Mark Nordenberg announced that he would relinquish his position as the University of Pittsburgh’s 17th chancellor after 19 years of devoted service. In addition to experiencing dramatic increases in the size of its student body and average SAT scores of first-year students during Chancellor Nordenberg’s tenure, the University—which in 1995 ranked 24th in federal research support granted to its faculty members—now ranks fifth among all American universities. Pitt’s research has helped transform the region’s economy, attracting more than $9 billion of sponsored research support during the last 18 years. In addition, a successful capital campaign during Chancellor Nordenberg’s
tenure raised more than $2 billion to support many of Pitt’s educational and research initiatives.

The Wilton E. Scott Institute for Energy Innovation at CMU and the University of Pittsburgh’s Center for Energy are two examples of the many innovative enterprises established during the tenures of President Cohon and Chancellor Nordenberg, and the Foundation is proud to be partners with both of these outstanding educational and research institutions. In total, the Foundation provided funding of more than $70,000,000 to the University of Pittsburgh and a nearly equal amount to Carnegie Mellon University during the years that Chancellor Nordenberg and President Cohon led their respective schools.

In 2013, the Foundation supported numerous other worthy educational institutions and community organizations, awarding 31 grants totaling $23,012,000. A grant of $1,000,000 toward scholarships and renovations of buildings and classrooms was made to Oakland Catholic High School, and the Greater Latrobe Partners in Education Foundation, Inc. received a grant of $1,000,000 toward renovations of the junior high and for the integration of state-of-the-art technology in classrooms. The Ligonier Valley School District received a $1,000,000 gift to migrate to technology-supported instructional practices and assessments.

The Foundation’s support of colleges and universities in the region includes, among others, Grove City College, which received $4,000,000 toward construction of the science, engineering, and mathematics building, and Seton Hill University, which was the recipient of a $7,000,000 grant toward renovation of the Lynch Hall Science Building and construction of a new health, science, and technology center.

### Enriching Life in the Region

Like the University of Pittsburgh’s Mark Nordenberg and CMU’s Jared Cohon, the Allegheny Conference on Community Development’s chief executive officer Dennis Yablonsky is a seasoned veteran and outstanding leader when it comes to managing and directing dynamic growth. Mr. Yablonsky brings a wide range of experiences as a private businessman, a nonprofit economic development professional, and a high-level appointed government official to his work with the Allegheny Conference.

In 2013, the Conference’s role to help ensure sufficient state funding for transportation infrastructure and public transit illustrates Mr. Yablonsky’s keen leadership abilities. By enlisting members of its Regional Investors Council and major business leadership organizations across the state to publicize
the issue's importance to the governor and key lawmakers, as well as securing the support of an unusual, bipartisan, statewide coalition of social service nonprofit organizations, business, and organized labor entities, the Allegheny Conference helped pursue a lasting transportation solution that provides an annual $2.3 billion in transportation infrastructure and stable funding for public transit for years to come.

Founded in 1944, the Conference originally focused on alleviating air pollution and regional transportation challenges. Today’s Allegheny Conference and its affiliated organizations—the Greater Pittsburgh Chamber of Commerce, the Pennsylvania Economy League of Greater Pittsburgh, and the Pittsburgh Regional Alliance—promote public-private partnerships that enhance all aspects of life in southwestern Pennsylvania. In 2013, the Foundation awarded $567,000 in grants to the Allegheny Conference to support the TechBelt Initiative and general operations, enabling the Conference to continue to promote industry research partnerships that help generate jobs and growth in the region.

Overall, the Foundation awarded 66 grants totaling $55,764,000 in 2013 to many organizations whose admirable work supports regional economic development. Bridgeway Capital received a grant in the amount of $1,700,000 toward the purchase of 7800 Susquehanna Street in Homewood ($1,500,000) and to expand their micro-loan program ($200,000). A grant of $400,000 was awarded to the Brownsville Area Revitalization Corporation toward LEED certification aspects of the renovation of 27 Market Street in Brownsville. This support will fund infrastructure improvements and completion of retail space on the lower level of the building, which, when fully renovated, will house several businesses, apartments, and arts initiatives in this economically challenged community.

**Serving Those in Need**

Recently, Marc Cherna, director of the Allegheny County Department of Human Services, received the first-ever Casey Lifetime Achievement Award for Excellence in Child Welfare Leadership from Casey Family Programs, the nation’s largest operating foundation focusing entirely on foster care and improving the child welfare system. Mr. Cherna was
recognized for four decades of endeavors and commitment to ensuring safe, positive outcomes for children and families in the foster care system. He was a key player in consolidating and stabilizing the Allegheny County Department of Human Services and—together with his staff—transformed it into the award-winning, model agency it is today. During Mr. Cherna’s tenure, he has presented opportunities for the Foundation to make $8,500,000 in direct investments for projects to help improve the capacity of the agency. In 2013, the Foundation was honored to support Mr. Cherna’s work in the Allegheny County Department of Human Services with a grant of $41,000 to implement an evidence-based Crossover Youth Practice Model (CYPM) that seeks to reduce recidivism among “crossover youth” who are involved in both the child welfare and juvenile justice systems.

All told in 2013, the Foundation awarded 66 grants totaling $19,692,500 to organizations whose work provides an array of human services to southwestern Pennsylvania’s citizens. A grant of $150,000 was awarded to the Greater Pittsburgh Community Food Bank toward start-up capital for Pittsburgh Community Kitchen, while Ligonier Valley Meals on Wheels received a grant of $5,000 to purchase a commercial range. Shepherd’s Heart Fellowship and Ministries was awarded $375,000 toward a commercial kitchen renovation that will enhance its food service to the homeless, many of whom are veterans. A grant of $100,000 toward support of operations and equipment was made to the Westmoreland County Food Bank.

**Safeguarding Nature**

Under the leadership of The Conservation Fund’s (TCF) president and chief executive officer Lawrence Selzer, TCF has been one of the Foundation’s key partners in ongoing efforts to preserve and protect land, water, and habitats in Pennsylvania and throughout the country. Mr. Selzer pioneered efforts utilizing economic models to achieve conservation objectives. In 2009, TCF launched the New Forest Fund, an innovative method of providing bridge capital to acquire and sustainably manage large tracts of working forests with high conservation value, while working with conservation partners to get these lands permanently protected. In 2013, the Foundation made grants totaling $8,400,000 to the organization, including $900,000 toward three-year support of operations.
Throughout the nearly three decades since the Foundation began supporting TCF, the organization has leveraged this funding—which totals more than $100,000,000 to date—to protect 3.1 million acres of critical habitat. With Foundation support, TCF safeguarded iconic landscapes in all 50 states, including the Rocky Mountain Front, the Grand Canyon, the Adirondacks, the rivers of the South, the forests of New England, and 66,000 acres in Pennsylvania, as well as the Flight 93 Memorial.

In 2013, the Foundation made 33 grants totaling $14,489,650 in support of its longtime land, water, and natural habitat conservation efforts throughout the country. A number of the Foundation’s grants underscore efforts to engage citizens—students, farmers, landowners, and others—in outreach, education, and protection endeavors related to Pennsylvania’s natural resources. For example, The Chesapeake Bay Foundation, Inc. received a grant of $750,000 toward support of the Pennsylvania Watershed Restoration Program. A grant of $150,000 was awarded to Land Trust Alliance, Inc. toward two-year support for technical assistance and training programs to serve land trusts in western Pennsylvania. The Foundation awarded a grant to the Ruffed Grouse Society in the amount of $275,000 toward improvements to information systems and technology, private forest landowner outreach, and habitat management equipment. Finally, the Western Pennsylvania Conservancy was awarded grants totaling $680,000, including $520,000 toward three-year support of the French Creek Collaborative for watershed restoration and public education in addition to $160,000 for the protection of two properties in western Pennsylvania.

As always, I join together with my fellow trustees in expressing deep thanks and appreciation to each of the many outstanding organizational leaders with whom the Foundation has partnered in 2013 to further our mutual goals and enrich the region. This year, as previously noted, we are especially proud to recognize and honor several key individuals for their longtime and exceedingly steadfast commitment to their work—and to ours: Marc Cherna, Jerry Cohon, Mark Nordenberg, Larry Selzer, and Dennis Yablonsky. It is their exceptional leadership, inspiration, and innovation—in conservation, education, human services, and regional economic development—that are at the heart of improving life in southwestern Pennsylvania and protecting and preserving essential natural resources throughout our nation.
The Foundation is proud to support a variety of hands-on organizations whose endeavors are dedicated to building, restoring, and enriching the economic vitality and quality of life in communities throughout southwestern Pennsylvania.

Reviving Communities
BROWNSVILLE AREA REVITALIZATION CORPORATION

Located 35 miles south of Pittsburgh, Brownsville, Pennsylvania, was an industrial center and steamboat building hub throughout the 18th and 19th centuries. More recently, the borough served as a railroad yard and coking center until suburban development and changes in the steel industry drained the town of its economic vitality. Today, the Brownsville Area Revitalization Corporation (BARC) works to revive the area through historic preservation, heritage tourism, outdoor recreation, community stewardship, education, youth advancement, and the arts. Recently, BARC acquired and restored four buildings along Market Street—the main downtown thoroughfare—that currently are occupied by commercial and residential tenants. The Keystone Project will continue this restoration in two adjoining Market Street buildings which, when completed, will house Brownsville’s sole pharmacy on the ground floor and seven residential apartments on the upper floors. The development also will include the location and opening of the Brownsville Community Cultural Arts Center. A Foundation grant in the amount of $400,000 will support LEED certification aspects of the renovation of one of the buildings, including roof repairs, as well as improvements to the façade, utilities, and HVAC system. Once the building’s infrastructure has been upgraded, work will proceed to complete the lower level retail space.
Supporting Regional Partnerships
ALLEGHENY CONFERENCE ON COMMUNITY DEVELOPMENT

Funding from the Foundation in the amount of $567,000 was awarded to the Allegheny Conference on Community Development for operating support ($467,000) and toward the TechBelt Initiative ($100,000), a three-state, strategic effort to reinvigorate the Cleveland-to-Pittsburgh-to-Morgantown corridor and the surrounding region. The Foundation is proud to support this initiative, which not only demonstrates visionary leadership, but also is successfully promoting industry research partnerships that are fostering the region’s renewed growth and ongoing transition to a technology and knowledge-based economy.

Improving the Quality of Life with Access to Trails and Rivers
BIKE PITTSBURGH

Bike Pittsburgh, Inc. endeavors to make the city an increasingly safe, accessible, and friendly place to bike and walk. As a result of its ongoing work, Pittsburgh has seen bike usage increase nearly 300 percent in little more than a decade. Efforts include redesigned roadways that are safer for pedestrians and bicyclists, production of an award-winning map for walkers and bicyclists, and installation of bike racks on city buses and at sites throughout the city. Today, among the nation’s 60 most populous cities, Pittsburgh ranks 16th in bike usage and fourth in the number of residents who commute on foot. A grant from the Foundation in the amount of $300,000 will help establish a bike share program in Pittsburgh, as well as promote biking, walking, and associated safety programs around this initiative. Modeled on successful bike share programs in other cities, the first phase of the project will include 50 stations and 500 bikes across the East End, North Shore, and South Side. Future expansion will increase the system to 100 stations and 1,000 bikes.
Mobilizing the Community

OPERATION BETTER BLOCK

Operation Better Block (OBB) aims to strategize, organize, and mobilize—block by block—to benefit the residents of Homewood, a community characterized by low-performing schools, poverty, high crime rates, and blighted and abandoned properties. OBB began to address neighborhood blight and abandonment by undertaking community surveys to determine the most critical sites, assisting homeowners with services to clear tangled property titles, and planning and implementing a revitalization of the one-square-mile community through multiple phases of development. OBB also organized students to clean up overgrown vacant lots through its Junior Green Corps, a 2010 initiative that provides young people in Homewood with structured activities to improve their physical environment, equips them for leadership roles in the community, and provides them with opportunities to explore green-collar jobs and careers. A Foundation grant of $400,000 enables OBB to continue these efforts, which focus on repurposing vacant property, constructing six new homes in the area, addressing the need to remodel some blighted properties, and exploring opportunities to incorporate parks, signage, lighting, and other safety improvements in the neighborhood. This support also will help OBB continue its block watch and youth development programs.
Building Quality Leadership
THE PITTSBURGH FOUNDATION AND UNIVERSITY OF PITTSBURGH, INSTITUTE OF POLITICS

In an effort to provide city government with a professional hiring process and afford citizens opportunities to propose ideas about how the local government can be organized to best provide services, The Pittsburgh Foundation and the University of Pittsburgh, Institute of Politics established Talent City. This citywide initiative is designed to incorporate objectivity, transparency, and rigorous hiring practices into the process of assembling the best available senior leadership team for Pittsburgh. Support from the Foundation in the amount of $105,000 helped establish a process to identify qualified applicants for key, senior-level positions in local government, as well as create a citizen oversight committee that will maintain the integrity of the hiring process.

As part of the Point State Park restoration, the fountain has been reopened and trails have been created to provide access all along the riverfront.
Restoring Riverfronts
RIVERLIFE

Dedicated to reclaiming, restoring and promoting Pittsburgh’s riverfronts, Riverlife works to make these waterways the environmental, recreational, cultural, and economic hub of the city. Three Rivers Park, a 13-mile continuous loop of riverfront parks and trails along the Allegheny, Monongahela, and Ohio rivers, is the centerpiece of Riverlife’s efforts and is currently 75 percent complete. Among the organization’s completed projects are the trail and amphitheater at SouthSide Works, the restoration at Point State Park, and the partnership established with Pittsburgh’s professional soccer team—the Riverhounds—that provides access to trails that run near the team’s new stadium at Station Square. Ongoing projects include work on the Allegheny Riverfront to redesign Pittsburgh’s Strip District, as well as participation in half a dozen other projects of similar scope. Riverlife received Foundation funding in the amount of $975,000 toward two-year support of operations for continued work on Three Rivers Park.
A Community’s Artistic Vitality  
WESTMORELAND SYMPHONY ORCHESTRA

For more than four decades, Westmoreland Symphony Orchestra (WSO) has provided classical and pops performances and music education opportunities for the citizens of the Westmoreland County area, contributing to the region’s economic vitality not only by attracting thousands of patrons to the performances but also through the accompanying expenditures at local restaurants, parking facilities, and other venues.

In 2013, the Foundation awarded WSO a grant in the amount of $34,000 to complete the capital portion of its current “Legacy for the Future” campaign. The funds will support the purchase of instruments and the associated stage furnishings, such as a sound shield and cello chairs, as well as administrative equipment, including a copier and cameras for the marketing department.
Regional Economic Development

Grant Summary

Grants Approved
$55,764,000
49% of total

Number of Grants
66

AIA Legacy, Inc.
WASHINGTON, DC
$50,000 toward the 2013 Remaking Cities Congress held in Pittsburgh, October 16-18, 2013

Allegheny Conference on Community Development
PITTSBURGH, PA
$100,000 toward the TechBelt Initiative to promote industry research partnerships that generate jobs and growth in the region
$467,000 toward support of operations

Almono, LP
PITTSBURGH, PA
$1,703,000 of program-related investment toward capital projects for the Almono site

Aspinwall Riverfront Park, Inc.
PITTSBURGH, PA
$750,000 toward development of a riverfront park in Aspinwall

Bike Pittsburgh, Inc.
PITTSBURGH, PA
$300,000 to establish a bike share program in Pittsburgh ($200,000) and to promote biking, walking, and associated safety programs ($100,000)

Bridgeway Capital
PITTSBURGH, PA
$1,700,000 toward purchase of 7800 Susquehanna Street in Homewood ($1,500,000) and to expand the micro-loan program ($200,000)

Brownsville Area Revitalization Corporation
BROWNSVILLE, PA
$400,000 toward LEED certification aspects of the renovation of 27 Market Street in Brownsville

Carnegie Mellon University
PITTSBURGH, PA
$30,000,000 toward five-year support to establish a world-class energy research institute that will enhance the region’s reputation as an energy leader
$150,000 to assist Green Building Alliance with efforts to encourage Pittsburgh’s class A, B, and C office owners to invest in energy efficiency

City of Pittsburgh, Department of City Planning
PITTSBURGH, PA
$75,000 toward the Pro Walk/Pro Bike conference to be held in Pittsburgh in 2014 and to establish a scholarship for regional participants

Community Theater Project Corporation
PITTSBURGH, PA
$300,000 toward support of operations

Conemaugh Township
JOHNSTOWN, PA
$160,000 to match a grant from the Pennsylvania Department of Conservation and Natural Resources for enhancements to the Stonycreek Whitewater Park

East Liberty Development, Inc.
PITTSBURGH, PA
$350,000 toward two-year support for Thrill Mill to open an early-stage business incubator in East Liberty that will house at least 15 entrepreneurs annually

Flax Scutching Festival
STAHLSTOWN, PA
$15,000 toward two-year support of festival programs

Fort Ligonier Association
Ligonier, PA
$9,000 toward participation in events commemorating the 250th anniversary of the signing of the 1763 Paris Treaty
$250,000 toward support of operations

Frick Art & Historical Center
PITTSBURGH, PA
$3,000,000 toward three-year support of the renovation plan to expand educational capacities and enrich visitors’ learning experience

Friends of the Riverfront
PITTSBURGH, PA
$75,000 toward support of land and water trail development and usage, and stewardship programs

Grantmakers of Western Pennsylvania
PITTSBURGH, PA
$23,000 toward support of operations

Greensburg Community Development Corporation
GREENSBURG, PA
$28,000 to move the Westmoreland County Veterans Monument to the Greensburg Courthouse

Grow Pittsburgh
PITTSBURGH, PA
$95,000 toward support of operations, including expansion of programs in Homewood

Hill House Association
PITTSBURGH, PA
$250,000 toward support of operations
Historical Society of Western Pennsylvania
PITTSBURGH, PA
$700,000 toward two-year support of major exhibitions and related educational programs

Kiva Microfunds
SAN FRANCISCO, CA
$100,000 to expand access to micro-credit for small business owners and entrepreneurs in Pittsburgh and the surrounding areas

Ligonier Valley Historical Society
LAUGHLINTOWN, PA
$125,000 toward two-year support to implement a strategic development plan

The Mattress Factory, Ltd.
PITTSBURGH, PA
$500,000 toward two-year support of facilities improvements

Mountain Watershed Association, Inc.
MELCROFT, PA
$10,000 toward construction of a bridge in Donegal Township, along the Indian Creek Trail

The National Road Heritage Corridor
UNIONTOWN, PA
$120,000 toward development of the Sheepskin Trail, a 34-mile bike trail through Fayette County that will link the Great Allegheny Passage to West Virginia’s Mon River Trail system

New Hazlett Center for the Performing Arts
PITTSBURGH, PA
$410,000 toward two-year support of operations and a fund development challenge

Operation Better Block, Inc.
PITTSBURGH, PA
$400,000 toward economic development programs in Homewood

Passive House Institute US, Inc.
URBANA, IL
$35,000 toward costs associated with the 2013 North American Passive House Conference held in Pittsburgh

Pennsylvania Cross Country Skiers Association
PITTSBURGH, PA
$15,000 toward purchase of a storage shed and grooming equipment to maintain cross country skiing trails in Laurel Mountain State Park and Forbes State Forest

Pittsburgh Entertainment Project
PITTSBURGH, PA
$400,000 to develop a sustainable entertainment sector for southwestern Pennsylvania

Pittsburgh Filmmakers
PITTSBURGH, PA
$550,000 toward three-year support of education programs and the Flight School
$150,000 toward one-year support of Public Source programming

The Pittsburgh Foundation
PITTSBURGH, PA
$105,000 to establish a process to identify qualified applicants for local government positions, and to establish a citizen oversight committee

Pittsburgh Middle East Institute, Inc.
PITTSBURGH, PA
$50,000 toward hosting conferences and events to promote Pittsburgh business and industry to Middle East delegates

Pittsburgh Musical Theater
PITTSBURGH, PA
$500,000 toward purchase and renovation of the James Centre in the West End

Pittsburgh Opera, Inc.
PITTSBURGH, PA
$350,000 toward support of operations

The Pittsburgh Public Theater Corporation
PITTSBURGH, PA
$275,000 toward support of operations

Pittsburgh Symphony, Inc.
PITTSBURGH, PA
$300,000 toward support of operations

The Pittsburgh Trust for Cultural Resources
PITTSBURGH, PA
$325,000 toward support of JazzLive 2013 and the International Festival of Firsts

Pittsburgh Water and Sewer Authority
PITTSBURGH, PA
$100,000 toward use of green infrastructure in Pittsburgh and nearby communities

Port of Pittsburgh Commission
PITTSBURGH, PA
$75,000 toward a feasibility study to launch the Clean Fuels/Clean Rivers initiative to build a natural gas marine corridor extending from Morgantown through Pennsylvania and down the Ohio River to Huntington, West Virginia

Passenger of Pittsburgh Commission
PITTSBURGH, PA
$300,000 toward purchase and restoration of an historical structure in Laughlintown

Renewable Manufacturing Gateway
PITTSBURGH, PA
$750,000 toward support of operations

RIDC Fund for Economic Growth
PITTSBURGH, PA
$750,000 toward operating costs to manage the Almono site

Riverlife
PITTSBURGH, PA
$975,000 toward two-year support of operations for Three Rivers Park
Service Corps of Retired Executives  
LATROBE, PA  
$10,000 toward support of a marketing program to target new businesses and improve existing businesses in Westmoreland County

Smart Growth Partnership of Westmoreland County, Inc.  
GREENSBURG, PA  
$85,000 toward support of operations

Southern Alleghenies Museum of Art  
LORETTO, PA  
$10,000 toward replacement of the HVAC unit at the Ligonier Valley Museum

Sustainable Pittsburgh  
PITTSBURGH, PA  
$345,000 toward two-year support of programs to encourage municipalities and businesses to make measured reductions in resource consumption and emissions

ToonSeum  
PITTSBURGH, PA  
$10,000 toward support of events during the 2013 National Cartoonists Society Conference, held in Pittsburgh

$10,000 toward planning efforts to bring the International Cartoon Art Museum Conference to Pittsburgh in 2014

University of Pittsburgh, Graduate School of Public and International Affairs  
PITTSBURGH, PA  
$75,000 toward two-year support of CONNECT’s ongoing work on shared infrastructure issues affecting the City of Pittsburgh and 36 neighboring communities

Urban Innovation21  
PITTSBURGH, PA  
$550,000 toward two-year support to expand economic growth in Pittsburgh’s underserved communities

Valley School of Ligonier  
LIGONIER, PA  
$1,400,000 to Valley School’s Real Estate Fund, which secures critical regional properties that help ensure the school’s long-term sustainability

Venture Outdoors  
PITTSBURGH, PA  
$175,000 toward support of operations

Westmoreland County Parks & Recreation Citizens Advisory Board  
GREENSBURG, PA  
$250,000 to develop recreational opportunities at Twin Lakes Park

Westmoreland Symphony Orchestra  
GREENSBURG, PA  
$34,000 toward artistic and administrative equipment needs

WQED Multimedia  
PITTSBURGH, PA  
$550,000 to serve the community through multimedia civic journalism platforms and highlight issues of importance to the region

$30,000 toward an implementation plan for the WQED Center for Innovation and Entrepreneurship in Public Media, Radio Futures, and Strategic Plan Scorecard

$600,000 toward support of operations

Zoological Society of Pittsburgh  
PITTSBURGH, PA  
$10,000 to develop a roadmap to enhance visitors’ zoo experience
Bill Generett, Jr.
President and CEO
URBAN INNOVATION21

Bill Generett, Jr. has a lot of faith in Pittsburgh and in the power of collaboration. This faith serves him well in his post as the inaugural president and CEO of Urban Innovation21, an umbrella organization of public-private partnerships that promotes economic development by connecting the region’s underserved communities with successful institutions in the innovation economy. Mr. Generett has been guiding the organization since 2007, when it was founded as the Pittsburgh Central Keystone Innovation Zone (PCKIZ).

Using a range of skills he acquired and honed as a corporate attorney, entrepreneurial business owner, and legal staffing professional, Mr. Generett, a Pittsburgh native, provides broad-based leadership to the consortium of 16 institutions that are Urban Innovation21’s partners. Among them are colleges and universities, business concerns, governmental entities, non-profit organizations, and philanthropic foundations—all dedicated to stimulating the growth of southwestern Pennsylvania’s innovation economy.

Urban Innovation21’s efforts focus on the North Side, Uptown, and the Hill District, where Generett uses a creative blend of tax incentives, entrepreneurial resources, educational and internship programs, networking events, and technology vehicles to help increase economic development activities, promote economic sustainability, and transform some of the city’s most economically challenged neighborhoods. This work has attracted and supported 46 startup companies to these communities that are part of the Pittsburgh Central Keystone Innovation Zone and are benefiting from access to tax credits, business capital, paid internships, and networking opportunities.

Homewood is the first neighborhood in which Mr. Generett is attempting to replicate his efforts to build and strengthen the economy in a community that has been disconnected from Pittsburgh’s economic transformation. Through business planning competitions and small grants to help local businesses grow, Urban Innovation21 has already begun to have an impact on helping new businesses emerge from within the Homewood community.

The Foundation is pleased to support Urban Innovation21, which, under Mr. Generett’s leadership, is fostering inventive, effective collaborations and partnerships that are responsible for economic development and urban revitalization in areas that often do not benefit from the innovation economy that is a hallmark of the region.
PROMOTING EXCELLENCE THROUGH LEADERSHIP
With direction and guidance from talented and dedicated leaders, an array of academic institutions and community organizations throughout the region is providing vital knowledge, skills, services, and resources to students and citizens of all ages. Using these tools better enables students to tackle individual challenges, launch and sustain successful careers, and participate as leaders themselves in endeavors that promote civic engagement, quality of life, and economic development for the next generation.
Redefining the Library
BRADDOCK CARNEGIE LIBRARY ASSOCIATION

Housed in a building that has been declared a National Historic Landmark, the Braddock Carnegie Library Association, the first Carnegie Library in the United States, offers both traditional library services—books, audio and visual materials, public-use computers, reading clubs, children’s story time, and summer reading initiatives—as well as community programs, including a ceramic studio, a screen-printing shop, and a music program. With a $100,000 grant toward two-year support of operations from the Foundation, the Braddock Carnegie Library Association, which recently completed a strategic planning process, will launch a multi-year fundraising campaign that will help set it on a path toward financial stability.
The Ligonier Valley School District received a grant of $1,000,000 toward three-year support to migrate to technology-supported instructional practices and assessments. A portion of this funding is being used to provide every high school student with an iPad for use throughout the academic year, as well as to establish iPad labs in the district’s elementary and middle schools. Using technology in this way will improve test scores, enhance opportunities for career exploration, and ensure that students have the skills necessary to succeed in today’s technology-driven world. According to the district’s superintendent, Christine Oldham, “this initiative will transform education.”

“This initiative will transform education.”

— Christine Oldham
Superintendent,
LIGONIER VALLEY SCHOOL DISTRICT
Reinventing Education

THE NEIGHBORHOOD ACADEMY

A grant of $350,000 toward two-year support to expand the individual and corporate giving programs was awarded to The Neighborhood Academy, a fully accredited independent school that seeks to break the cycle of generational poverty by preparing youth for higher education. A private school that evolved from an innovative summer school program for at-risk students founded by Josephine Moore and Reverend Thomas Johnson, The Neighborhood Academy provides students from families with demonstrated financial need with a holistic, college-preparatory education they otherwise would be unable to obtain. In addition to rigorous academics and extra-curricular activities, the school promotes students’ success by providing counseling, transportation, three meals a day, and assistance with emergency needs such as medical care.
“The Neighborhood Academy is more than a school. The Academy is dedicated to developing the minds, bodies, and spirits of our students so that they become fully productive members of our society. By so doing, our students will break the cycle of generational poverty that has held them captive and deprived society of the value of their lives.”

– Josephine B. Moore, President and Co-Founder, THE NEIGHBORHOOD ACADEMY
University of Pittsburgh, Institute of Politics received a $250,000 grant toward three-year support of the Institute’s education and public policy agenda, including a special project to address the combined sewage overflows affecting 83 different municipalities in Allegheny County. As a neutral, non-partisan entity, the Institute provides a unique forum in which elected officials, community leaders, and others can convene to discuss and develop educational seminars, legislative briefing sessions, and public forums focused on pressing public issues that affect the quality of life and economic vitality of the region.
“Over the past five years, the Nonprofit Clinic at the University of Pittsburgh has provided management consulting services to nearly 50 charitable organizations in Pittsburgh. It has attracted the attention of practitioners and scholars here and abroad as evidenced by an article on the Clinic in the March 2014 edition of *Teaching Public Administration*, a leading journal published in Great Britain.”

— Kevin Kearns, Professor and Director, *Johnson Institute for Responsible Leadership*

**Building Capacity of Others**  
**UNIVERSITY OF PITTSBURGH, GRADUATE SCHOOL OF PUBLIC AND INTERNATIONAL AFFAIRS**

A grant of $150,000 toward three-year support of the Nonprofit Clinic and the Leadership Portfolio Program at the University of Pittsburgh Graduate School of Public and International Affairs is providing real-world consulting and nonprofit board service opportunities to graduate students training for careers in the nonprofit and social service sectors.

**Training Students to Lead**  
**THE UNIVERSITY ECONOMIC DEVELOPMENT ASSOCIATION, INC.**

The University Economic Development Association, Inc. (UEDA) received a $5,000 grant toward registration costs for graduate and undergraduate students in southwestern Pennsylvania to attend its annual summit, which, in 2013, convened thought leaders in Pittsburgh to share ideas and best practices around university economic development. As the only organization with a specific charge to articulate the important role of higher education in America’s competitiveness, UEDA plays a critical role in training and guiding students to lead the way in connecting major educational institutions with local economic development initiatives.

**A Generation of New Leaders**  
**THE CORO CENTER FOR CIVIC LEADERS**

The Coro Center for Civic Leaders received a grant of $135,000 toward support of programs and operations. This funding will enable as many as 120 post-college students to participate in a range of civic and community engagement programs in Pittsburgh while they also develop individual strategic plans for their own growth as leaders. By nurturing these young professionals, the Coro Center is helping to build a cadre of ethical and effective leaders for the future.

Wireless Neighborhoods  
PITTSBURGH, PA  
$300,000 toward two-year support to provide a credit recovery program to Pittsburgh Public School high school students at risk of not graduating
JoAnne Boyle's leadership of Seton Hill University spanned a generation—from 1987 to 2013—during which the school evolved from an 870-student liberal arts women’s college into a thriving co-educational institution, offering 80 undergraduate and 12 graduate degree programs to more than 2,500 students. Under her direction, the endowment grew by more than 560 percent, the National Catholic Center for Holocaust Education was established, and a performing arts center (soon to be joined by a dance and visual arts center) was built, expanding the hilltop campus into downtown Greensburg and helping to bring jobs and economic growth to the cultural district.

Dr. Boyle further distinguished the University—and herself—as a leader in technology when, in 2010, Seton Hill became the first university to provide iPads and MacBooks to students and faculty members. Reflecting on this bold move, she noted at the time, “Seton Hill has become nationally recognized for leadership in the creative use of mobile technologies preparing our students for the future and for careers yet to be imagined!”

Indeed, as an alumna, a faculty member, chair of the English Department, and president of the University, JoAnne Boyle and her visionary leadership will benefit the entire Seton Hill community for generations to come. Through its support, the Foundation is proud to promote the university’s academic excellence and the legacy of JoAnne Boyle.
GUIDING OTHERS TO A BETTER LIFE
With the vision, guidance, and expertise of their dedicated leaders, many community-based organizations are working to enhance the quality of life for underserved citizens throughout southwestern Pennsylvania. They are devoted to alleviating hunger, crime, and illness, providing educational and cultural opportunities, lessening barriers to learning, and ensuring physical and emotional health, wellness, and safety for all.

Strengthening the Region
COMMUNITY FOUNDATION OF GREATER JOHNSTOWN (D/B/A Community Foundation for the Alleghenies)

Under the leadership of Mike Kane, president and executive director, the Community Foundation for the Alleghenies (CFA) has, since 1990, distributed more than $28 million in grants to more than 1,300 organizations in Johnstown and surrounding communities in Cambria, Bedford, and Somerset counties. CFA grants support initiatives from arts and humanities to children and youth, and from economic development to education, the environment, and health and human services. Because CFA staff members possess intimate knowledge of the three-county region, the Foundation has formed a partnership that enables CFA staff to assist in reviewing proposals for local projects submitted to RKMF. Although the Foundation reviews all proposals to determine their community impact, the collaboration with CFA provides the Foundation with local expertise for proposals in the Johnstown region and effectively targets Foundation funds, ensuring they have the greatest effect on local initiatives and revitalization efforts. In recent years, this partnership has provided funding to renovate a kitchen and restrooms in a facility that serves meals to the homeless, create a community garden, improve the local library and increase its revenue by adding a coffee shop, and complete a co-op to sell locally grown and other food in an economically challenged neighborhood. In 2013, CFA received a grant from the Foundation in the amount of $450,000 toward joint grant-making interests in the Johnstown area.
Building Organizational Capacity

HOSANNA HOUSE, INC.

A grant of $500,000 was awarded to Hosanna House, Inc. (HHI) in 2013 to support increased capacity at Sherwood Recreational Facility, including enclosing part of the facility to make it available for year-round use and rentals, as well as completing an important water run-off project to make the entire 14-acre site, including new nature trails, usable. These improvements will aid in strengthening the financial viability of HHI, which was founded by executive director Leon Haynes, III. Haynes is a caring leader whose drive and determination to convene government, business, social service, education and religious leaders, and organizations in meaningful partnerships have resulted in the fulfillment of the community’s vision—a comprehensive, multifaceted community center that brings health and human services to Wilkinsburg.
“It’s about a sense of community and being part of something bigger than yourself.”

– Leon Haynes, Executive Director, HOSANNA HOUSE, INC.
Communities Developing From Within

HOMEWOOD CHILDREN’S VILLAGE

A grant to Homewood Children’s Village (HCV) in the amount of $750,000 toward support of operations will help the organization focus on reducing absenteeism and behavioral issues and improving grades in its existing school programs in Homewood. HCV staff members address attendance and suspension concerns, health and safety issues, and academic support as part of a comprehensive effort to improve the lives of Homewood’s children and to reweave the fabric of the community in which they live.
In 2013, the East Liberty Family Health Care Center, Inc. received a grant of $500,000 toward two-year support of operations and capital needs. Under the leadership of two dedicated and longtime physicians—Dr. David Hall, the Center’s founding and current medical director, and Dr. Eileen Boyle, CEO and assistant medical director—the Center provides whole-person, quality healthcare each year to more than 25,000 patients, the majority of whom are uninsured, underinsured, and underserved. As a result, more than $2 million in unreimbursed medical, dental, and mental health services are provided annually. The Foundation’s funding will assist the Center in increasing its efficiency in meeting an ever-increasing demand for service, and a challenge grant will add new donors to the Center’s annual fund.
Meeting Youth Development Needs
MANCHESTER YOUTH DEVELOPMENT CENTER

The Manchester Youth Development Center (MYDC) received $400,000 of Foundation funding toward two-year support of operations and programs. A neighborhood fixture for more than four decades, MYDC provides after-school programming, a summer camp, and a childcare center, and was instrumental in developing the high quality Manchester Academic Charter School. These initiatives promote academic, social, and emotional development, ensuring graduation from high school and preparedness for the future. Under the leadership of executive director Cheryl Walker, MYDC has, over the past several years, diversified its funding base and significantly strengthened its balance sheet.

Building the Quality of Child Care
THE PITTSBURGH ASSOCIATION FOR THE EDUCATION OF YOUNG CHILDREN

The Pittsburgh Association for the Education of Young Children (PAEYC) received a grant of $317,000 to build capacity of family childcare providers for high-quality care in a sustainable manner. Under the guidance of executive director Michelle Figlar, PAEYC created the Family Child Care Homes (FCCH) Alliance to address specific challenges faced by home-based, neighbor/relative providers who often possess a passion to care for children, but not the financial skills necessary to run a business. The FCCH Alliance aims to improve financial literacy, create avenues for shared services, provide a forum to build skills—particularly around early literacy—and share best practices. The Foundation’s funding will support PAEYC’s work with the FCCH Alliance currently operating in Homewood in conjunction with the Children’s Village’s Early Learning Network, as well as help PAEYC create new Alliances in the Hazelwood and Hilltop communities, improving the quality of child care and the financial management of the home businesses that offer this care.

Veterans Leadership Program of Western Pennsylvania, Inc.
PITTSBURGH, PA
$400,000 toward support of operations

The Western Pennsylvania Hospital Foundation
PITTSBURGH, PA
$350,000 toward two-year support of the expansion of the Simulation, Teaching, and Academic Research Center

Westmoreland County Food Bank, Inc.
DELMONT, PA
$100,000 toward support of operations and equipment

Wilkinsburg Community Ministry
WILKINSBURG, PA
$15,000 to provide nutritious, hot meals year-round to at-risk and developmentally challenged youth

Young Men’s Christian Association of Pittsburgh
PITTSBURGH, PA
$1,500,000 toward two-year support to bridge a financial gap created by urban programs

Young Men’s Christian Association of Uniontown
UNIONTOWN, PA
$75,000 toward construction of an activity room for 8- to 13-year olds

Young Women’s Christian Association of Pittsburgh
PITTSBURGH, PA
$25,000 toward an energy audit and sustainability assessment for the Homewood Brushton Community Center
From the time he entered medical school at the University of Rochester in 1975, David Hall wanted a health center in Pittsburgh that would serve all who needed care, but especially those who were uninsured, underserved, and at risk of falling through the cracks of the health care system. Returning to the area soon after completing his medical training as a family practice physician, Dr. Hall, a Mt. Lebanon native, sought work that would demonstrate, particularly to those in greatest need, that every individual has value in the world. With encouragement and basement space in the Eastminster Presbyterian Church, both provided by Reverend Douglas Dunderdale, the church’s senior pastor, Dr. Hall began his tenure as the medical director of the East Liberty Family Health Care Center when it opened in 1982. He’s been there ever since.

In addition to making a difference in the lives of patients and their families by providing care that addresses their physical, emotional, and spiritual needs, Dr. Hall finds true joy in providing health care when none had existed previously, especially for the uninsured and young people, many of whom would not visit a doctor’s office.

The East Liberty Family Health Care Center comprises two medical offices—one in East Liberty and one in Lincoln-Lemington—as well as a dental clinic. More than 25,000 patients each year receive care provided by a medical staff of 10 doctors and nurse practitioners. The Foundation is proud to support Dr. Hall and the staff of the Center in their efforts to provide whole-person, quality health care for all.
LEADING THE WAY IN PROTECTING OUR LAND & WATER
The Foundation maintains a deep devotion to land preservation and watershed protection and restoration. Through its grantmaking activities, it supports organizations whose conservation initiatives highlight exceptional leadership and collaboration, as well as capacity and commitment to preserve and protect America’s natural resources.

Developing Conservation Strategies
THE NATURE CONSERVANCY

The Nature Conservancy—whose mission is to preserve the plants, animals, and natural communities that represent the diversity of life on Earth by protecting the lands and waters they need to survive—is one such organization. With past support from the Foundation, The Nature Conservancy has successfully created GIS data layers that show landscape-level impacts of various types of energy development (unconventional natural gas, wind, and biomass) and developed a consolidated data set of best management practices. The Conservancy has also originated an impressive computer-based modeling and decision-making tool that uses GIS to reduce habitat impacts. Using the modeling tool on specific demonstration sites in Sullivan County, Pennsylvania, The Nature Conservancy is partnering with proactive energy companies to determine optimal locations for roads, gathering lines, and well sites, ensuring they have the least environmental impact. A grant in the amount of $500,000 over two years to The Nature Conservancy will help the organization refine its modeling and decision-making tool as well as promote the improved software among companies, landowners, conservation organizations, and government entities seeking to minimize environmental impacts and maximize conservation outcomes in natural gas development.
Protecting Our Watersheds
LOYALHANNA WATERSHED ASSOCIATION

Loyalhanna Watershed Association (LWA) seeks to conserve, protect, preserve, and restore the water, land, and other resources of the Loyalhanna Creek Watershed to perpetuate and enhance the region’s quality of life. Abandoned mine drainage, sedimentation, and other forms of water pollution are among the challenges within the watershed. Following a comprehensive review of a portion of Loyalhanna Creek completed by Land Studies, a consulting firm that specializes in stream restoration, LWA, working systematically with several other organizations, is restoring 15 sites using natural stream design structures and stream bank improvements. A grant in the amount of $180,000 from the Foundation will support Phase II of the restoration, helping LWA and its partners address erosion pollution concerns on five different sites in the upper Loyalhanna Creek Watershed, document water quality improvements that result from the restoration projects, and increase recreational tourism in the Ligonier Valley.

Latrobe High School students collect macroinvertebrates using a kick net in Nine Mile Run to assist LWA in assessing the health of the stream.
Partnerships that Count
WESTERN PENNSYLVANIA CONSERVANCY

A $680,000 grant to the Western Pennsylvania Conservancy (WPC) includes $520,000 toward support of a multi-organizational/public partnership to advance land and water conservation in the French Creek Watershed. The gift also will assist the partnership in creating a long-term development plan for ongoing work in the watershed. Known for its exceptionally high level of biodiversity, French Creek is home to more than 90 fish species and 28 freshwater mussel species, some of which are endangered. The first part of the two-pronged effort focuses on intensive public education and outreach to decision makers, including local government officials, landowners, economic development groups, and the general public. The second component involves collaborative land protection among several organizations within the partnership. The alliance also is intended to empower the local land trust to take the lead in future land protection and education efforts.

A 40-acre tract in Venango Township, Erie County, helps to protect West Branch French Creek and the aquatic life it supports, while also conserving valuable floodplain forests.
Conservation Strategies for the Future

Chesapeake Conservancy

A grant of $50,000 will enable the Chesapeake Conservancy to develop geographic information system data sets and other intelligence to increase land protection in Pennsylvania’s Susquehanna River Basin. Working in partnership with the Federal Energy Regulatory Commission, federal land management agencies, local citizens, and the Exelon Corporation, owner of the Susquehanna River’s Conowingo Dam, the Conservancy will quantify the potential land to be protected, identify key habitats, and develop a conservation plan for these forested riparian lands.

Emerging Conservation Leadership

Pennsylvania Institute of Conservation Education

Through a grant of $100,000 to the Pennsylvania Institute for Conservation Education (PICE), the Foundation fulfilled a two-year pledge to support conservation leadership academy programs for middle and high school students. Using both hands-on field studies and classroom activities, PICE’s Wildlife Leadership Academy trains 14- to 17-year-olds in wildlife biology and management, habitat, botany, public speaking, leadership, conservation of natural resources, history of wildlife, and Pennsylvania ecology.

Supporting Community Conservation

Chesapeake Bay Foundation, Inc.

Lastly, a $750,000 grant from the Foundation to the Chesapeake Bay Foundation, Inc. (CBF) will support the Pennsylvania Watershed Restoration Program, which provides outreach and technical assistance to the state’s farmers and landowners. This funding will enable CBF to implement best management practices on 40 farms, restore 70 acres of wetlands, and create 330 acres of forested buffers, all of which will reduce pollution in the Susquehanna River and its tributaries.
The Conservation Fund and its partners have protected nearly 114,000 acres along the Montana’s Rocky Mountain Front and is the only place where grizzly bears still roam freely from the mountains to the Great Plains, as they have for centuries.

**Loyalhanna Watershed Association, Inc.**
LIGONIER, PA
$180,000 to address erosion pollution concerns in the upper Loyalhanna Creek Watershed, and increase recreational tourism in the Ligonier Valley

**Mountain Watershed Association, Inc.**
MELCROFT, PA
$300,000 toward two-year support to implement the Comprehensive Restoration Plan for Indian Creek and Jacob’s Creek watersheds

**National Fish and Wildlife Foundation**
WASHINGTON, DC
$300,000 toward two-year support to survey unassessed coldwater streams in Pennsylvania to determine if they are home to trout or other important or threatened species, and toward protection and restoration efforts

**National Wildlife Federation**
RESTON, VA
$480,000 toward two-year support to develop resources for parents to motivate children to connect with the outdoors

**Natural Lands Trust**
MEDIA, PA
$5,000 toward a forest regeneration conference to be held at The Pennsylvania State University in October 2014

**The Nature Conservancy, Inc.**
HARRISBURG, PA
$500,000 toward two-year support to promote siting tools and standards for shale gas development in the Central Appalachians

**Nine Mile Run Watershed Association, Inc.**
PITTSBURGH, PA
$275,000 toward two-year support of the runoff mitigation project, watershed monitoring, and efforts to improve public programs and funding for green infrastructure
Pennsylvania Environmental Council, Inc.
HARRISBURG, PA
$200,000 to support work on water resources, community development based on natural amenities, and energy programs in western Pennsylvania

Pennsylvania Institute for Conservation Education
LEWISBURG, PA
$100,000 toward two-year support of conservation leadership academy programs

Pennsylvania Resources Council, Inc.
PITTSBURGH, PA
$120,000 toward support of the Scenic Pittsburgh project, and to diversify funding

Pittsburgh Community Broadcasting Corporation
PITTSBURGH, PA
$25,000 to develop a corporate sponsorship and marketing plan, and to develop a business plan for Allegheny Front’s conservation and environmental affairs radio series
$95,000 toward production of a radio series to cover issues regarding habitat, conservation, and energy development in Pennsylvania, and to develop signature segments to help elevate the program’s brand

Pittsburgh Parks Conservancy
PITTSBURGH, PA
$29,000 toward a strategic alliance plan with the Allegheny Commons Initiative

Ruffed Grouse Society
CORAOPOLIS, PA
$275,000 toward improvements to information systems and technology, private forest landowner outreach, and habitat management equipment

Soldiers & Sailors Memorial Hall & Museum Trust, Inc.
PITTSBURGH, PA
$150,000 to place a green roof on the building

Western Pennsylvania Conservancy
PITTSBURGH, PA
$220,000 toward support of a multi-organizational/public partnership to advance land and water conservation in the French Creek watershed, and to assist the partnership in creating a long-term development plan for ongoing work in the watershed
$90,000 toward purchase of property in Ligonier Township, Westmoreland County
$70,000 toward costs associated with the transfer and stewardship of a conservation easement over approximately 724 acres located in Allegheny Township, Somerset County
$300,000 toward three-year support of the French Creek Collaborative for watershed restoration, land protection, and public education, as well as for strengthening the local land trust, The French Creek Valley Conservancy
Quick with a quip and a smile, Thomas D. Saunders has guided the Western Pennsylvania Conservancy (WPC) since 2007 as president and chief executive officer. Like many in the conservation community, his commitment to land protection is deeply rooted in a lifelong love of hiking, biking, and canoeing in settings from Point Reyes National Seashore in California, where he attended law school, to the mountains of New England, where he and a college friend take an annual hiking trip. In addition to his love of the outdoors, Mr. Saunders brings a clear vision, a well-defined strategy, and the ability to attract key staff to his work to advance WPC’s commitment to protect and restore natural resources for present and future generations. Large-scale land conservation, protection of tree canopies, and revitalization of public and open spaces are hallmarks of Mr. Saunders’ work, helping to ensure clean water, healthy forests, ample wildlife, and natural areas throughout the region.

Mr. Saunders’ professional experience prepared him well for his present role. Deeply committed to issues surrounding community development and design, he previously spearheaded these programs for the city of Gainesville, Florida. He also served as director of the Maryland Environmental Trust, which not only protects open space and supports the conservation work and capacity building of 40 local land trusts in Maryland, but also is one of the largest conservation easement-holding organizations in the country. Under Mr. Saunders’ leadership, WPC, the state’s first conservancy, continues its endeavors to create green spaces and gardens, as well as to preserve Fallingwater, a Frank Lloyd Wright masterwork that symbolizes the harmony between nature and humanity. During the more than eight decades since its founding, WPC has protected in excess of 235,000 acres of natural lands, restored watersheds, and saved natural habitats, preserving Pennsylvania’s rich biodiversity. Through its support of WPC, the Foundation is proud to help its visionary leaders—past and present—sustain the organization’s heritage of caring for water, land, and life in western Pennsylvania.

Notes to Financial Statements

Note 1: Significant Accounting Policies

Basis of Accounting
The accompanying financial statements of the Richard King Mellon Foundation (Foundation) are prepared on the accrual basis of accounting.

Nature of Operations
The purpose of the Foundation is to provide grants to organizations in Pittsburgh and Southwestern Pennsylvania, primarily in the areas of Regional Economic Development, Education, and Human Services and Nonprofit Capacity Building. Its interest in the area of Conservation is national.

Cash
Cash includes operating accounts plus domestic income cash held in bank custody accounts.

Investments
In accordance with the authoritative guidance on fair value measurements and disclosures under Generally Accepted Accounting Principles (GAAP), the Foundation discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The hierarchy...
Notes to Financial Statements (Cont.)

The Foundation considers observable data to be that market data which is readily available and reliable and provided by independent sources. The categorization of a financial instrument within the hierarchy is therefore based upon the pricing transparency of the instrument and does not necessarily correspond to the Foundation’s perceived risk of that instrument.

Investments whose values are based on quoted market prices in active markets are classified as Level 1 and include active listed equities and certain short-term fixed income investments. The Foundation does not adjust the quoted price for such instruments, even in situations where the Foundation holds a large position and a sale of all its holdings could reasonably impact the quoted price.

Investments that trade in markets that are not considered to be active, but are valued based on quoted market prices, dealer quotations, or alternative pricing sources, are classified as Level 2. These include certain U.S. government and sovereign obligations, government agency obligations, investment grade corporate bonds and less liquid equity securities.

Investments classified as Level 3 have significant unobservable inputs, as they trade infrequently or not at all. The inputs into the determination of fair value are based upon the best information in the circumstance and may require significant management judgment. Certain of the Foundation’s investments in stocks and long-term debt instruments are classified as Level 3 because they do not have an active market. Also, all of the Foundation’s alternative investments are classified as Level 3. These investments are primarily made under agreements to participate in limited partnerships and are generally subject to certain withdrawal restrictions. Values for these partnerships, which may include investments in both nonmarketable and market-traded securities, are provided by the general partner and may be based on recent transactions, cash flow forecasts, appraisals and other factors. Market values may be discounted for concentration of ownership. Because of the inherent uncertainty of valuing the investments in such partnerships and certain of the underlying investments held by the partnerships, the Foundation’s estimate of fair value may differ significantly from the values that would have been used had a ready market for the investments existed. The financial statements of the limited partnerships are audited annually by independent auditing firms. Investments in these partnerships may be illiquid, and thus there can be no assurance that the Foundation will be able to realize the value of such investments in a timely manner.

The Foundation’s investments are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that significant changes in risks in the near term may materially affect the amounts reported in the financial statements.

Realized gain (loss) from dispositions of investments is determined by specific cost identification. Unrealized gain (loss) of investments represents the change in the difference between fair value quotations and the total book value of investments held at the beginning and end of the year.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Program-Related Assets

The Foundation makes investments that advance its charitable mission and qualify as charitable distributions by the Internal Revenue Service. Such investments, which include loans made to various organizations and an investment in a private equity fund, earn below risk-adjusted market rates of return. Management has reviewed the program-related assets and believes no allowance is necessary as of December 31, 2013 and 2012.

Note 2: Taxes

The Foundation is exempt from federal income taxes under Section 501(c) (3) of the Internal Revenue Code. The Foundation is subject to a federal excise tax equal to 2% of net investment income, which consists of interest and dividend income, realized gains on sales of investments less realized losses to the extent that they can be offset against realized gains, less related investment expenses. The Foundation met certain distribution requirements defined in Section 4940 of the Internal Revenue Code, resulting in a reduced tax of 1% of net investment income for the year ended December 31, 2013.

At December 31, 2013 and 2012, deferred federal excise taxes are provided at 1%, which is the rate expected to be paid on unrealized gains on investments.

The Foundation is subject to the authoritative guidance on accounting for uncertainty in income taxes issued under Generally Accepted Accounting Principles. This guidance establishes a minimum threshold for financial statement recognition of the benefit of positions taken in filing tax returns (including whether an entity is taxable in a particular jurisdiction), and requires certain expanded tax disclosures. The Foundation has recorded no uncertain tax liabilities pursuant to this guidance. The Foundation continually reviews its tax positions and such conclusions under the guidance based on factors including, but not limited to, ongoing analyses of tax laws and regulations.

Note 3: Commitments

The Foundation is a Limited Partner in limited partnerships for investment purposes. At December 31, 2013 and 2012, the Foundation had contractually committed to additional investments of $157.6 million and $103.0 million, respectively.

At December 31, 2013, the Foundation had outstanding trades to purchase and sell investments with a settlement date in 2014 of $5.6 million and $0.9 million for a net payable of $4.7 million. At December 31, 2012, the Foundation had outstanding trades to purchase and sell investments with a settlement date in 2013 of $33.6 million and $30.5 million for a net payable of $3.1 million. These transactions are reflected within the financial statements on a net basis.
Note 4: Fair Value Measurements

The Foundation has certain investments that do not have readily determinable fair values but permit direct redemption or distributions at times specified under the governing documents. As a practical expedient, the Foundation relies on the net asset value (NAV) of these investments as their fair value. The net asset values that have been provided by the investees have been derived from the fair values of the underlying investments as of the reporting date. The following table summarizes the nature of these investments and any related liquidation restrictions or other factors that may impact the ultimate value realized.

<table>

</table>

All percentages below based on percent of total fair value of investments determined using NAV:
(1) Subject to shareholder approval.
(2) All funds subject to 7-30 days prior notice, 80% subject to monthly redemptions, 20% subject to quarterly redemptions.
(3) 72% subject to monthly redemption with 10-30 days prior notice, 28% subject to quarterly redemptions.
(4) All redemptions, sales, or transfers subject to approval of general partner.
(5) 25% 1 year, 47% 2-5 years, 18% 6-10 years, 10% 11-15 years; all funds subject to extensions between 0-3 years.

There are no current plans to sell any of these investments.

Note 5: Subsequent Events
The Foundation evaluated all activity through May 29, 2014, the date the financial statements were available to be issued, and concluded that no subsequent events have occurred that would require recognition in the financial statements or disclosure in the Notes to Financial Statements.

Independent Auditor’s Report

To the Trustees of the Richard King Mellon Foundation:
We have audited the accompanying financial statements of the Richard King Mellon Foundation ("the Foundation"), which comprise the statements of financial position as of December 31, 2013 and December 31, 2012 and the related statements of activities and changes in net assets and cash flows for the years then ended.

Management’s Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility
Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Foundation’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Richard King Mellon Foundation at December 31, 2013 and December 31, 2012, and the results of its operations, changes in its net assets, and its cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matter
Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplementary summary of investments is presented for purposes of additional analysis and is not a required part of the financial statements. The information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

Policy and Grant Guidelines
The following grant-making objectives and grant program priorities were approved by the Trustees in December 2009. They became effective in January 2010.

Objectives
The Foundation seeks to improve the competitive position of the region; strengthen the vitality of southwestern Pennsylvania, particularly the city of Pittsburgh and its neighborhoods; and protect precious green and natural infrastructure, particularly in western Pennsylvania.

Program Priorities
Southwestern Pennsylvania
Regional Economic Development
- University research and technology initiatives
- Initiatives promoting innovation, business diversification, local agriculture, and workforce excellence
- Urban community revitalization
- Regional cultural and recreational tourism

Education
- Colleges and universities integral to local communities
- Programs responsive to workforce market demands
- Programs designed to improve the quality of education performance
- Independent schools

Human Services
- Programs designed to achieve holistic and broadscale outcomes
- Early childhood programs focused on school readiness
- Career-focused, after-school programs
- Capacity-building initiatives

Western Pennsylvania
Conservation
- Land conservation with an emphasis on habitat protection and sustainable timber management
- Watershed protection and restoration with an emphasis on projects that are strategic
- Sustainable environments

The Foundation gives priority to projects and programs that have clearly defined outcomes and an evaluation component, and has a preference for partnering with other donors on initiatives. The Foundation accepts applications throughout the year. The Foundation uses the Common Grant Application format, developed by Grantmakers of Western Pennsylvania, which may be obtained at the website address foundationcenter.org/grantmaker/rkmellon/ or by contacting the Foundation offices.
