Richard King Mellon, 1899–1970

Richard King Mellon was born in Pittsburgh, Pennsylvania, on June 19, 1899, the son of Richard Beatty Mellon and Jennie King Mellon. Mr. Mellon served his country in both World Wars and in peacetime, attaining the rank of Lieutenant General, United States Army Reserve, and receiving the Distinguished Service Medal.

Mr. Mellon was the dominant figure in the financial, industrial, and civic life of his community for many years. He was President of Mellon National Bank and for twenty years Chairman of the Board of Mellon National Bank and Trust Company; as a director, he aided the growth of many of the nation’s leading enterprises, particularly Gulf Oil Corporation and Aluminum Company of America. Mr. Mellon, President and Governor of T. Mellon and Sons, inspired and led the rebirth of a great American city. His creative energies forged the Pittsburgh Renaissance, a nationally recognized architectural, civic, social, and educational venture.

In 1936 Mr. Mellon married the former Constance Mary Prosser, who served as Chairman of the Board of Trustees of the Richard King Mellon Foundation from its inception in 1947 until her death in 1980.

A renowned sportsman, Mr. Mellon generously endeavored to preserve the quality of the natural environment and to protect its wildlife.

Mr. Mellon died on June 3, 1970.

Chairman’s Letter

One of the worst recessions in the nation’s history profoundly affected the Pittsburgh region’s nonprofit community in 2009, and area nonprofits responded with commendable flexibility to preserve core services by cutting budgets, merging and consolidating activities, and reducing staff. The Richard King Mellon Foundation, although working with fewer resources, increased its support for organizations serving fundamental needs and provided additional grants for general operating support during this difficult time. The Trustees awarded 218 grants totaling more than $58 million to 174 organizations as compared to $66 million to 121 organizations in 2008. In addition to expanding basic program and operating support, the Foundation, in some instances, provided gap funding for organizations heavily reliant upon delayed government sources.

Regional Economic Development

For many years, the Richard King Mellon Foundation has been committed to helping the region strengthen its economy through innovation, diversification, and a prepared workforce. Pittsburgh’s comparative resiliency during the recession validates these strategies, and the Foundation sustained its support in 2009 with 84 grants totaling $16,770,500.

The Foundation invested $500,000 in the Idea Foundry, which nurtures young technology companies and entrepreneurs—because historically, much of net job creation occurs in businesses in existence for less than five years. The Trustees approved gifts totaling $600,000 to the Minority and Women Educational Labor Agency toward support of its building trades apprenticeship and sheltered-bond programs and a $100,000 grant to the National Center for Defense Manufacturing & Machining to assist smaller manufacturers in obtaining the certification required to bid on government contracts.
A strong urban core is a tenet of Pittsburgh’s continuing improvement, and several grants were made to support revitalization in Downtown and the Hill District. The August Wilson Center for African American Culture received gifts of $810,000, in addition to a previous year’s capital campaign gift of $2 million; $1,500,000 went toward the restoration and long-term maintenance of Mellon Square; and a grant of $500,000 will assist the Hill House Economic Development Corporation in attracting a full-service grocery store. A $25,000 grant to Duquesne University will support the Pittsburgh Central Keystone Innovation Zone, which is working on a comprehensive economic strategy that includes Downtown and the Hill District.

In a time of economic hardship, cultural assets and recreational attractions need to be sustained not only for the contribution they make to the quality of life but also for their role in attracting tourism now and in the future. The Trustees approved grants to the Westmoreland Museum of American Art ($150,000), the Frick Art & Historical Center ($75,000), and Sustainable Pittsburgh ($1,250,000).

Efforts to improve government efficiency and services continue to be a priority. The University of Pittsburgh’s Institute of Politics received support of $400,000 for regional planning coordination. Two nonprofits working to improve western Pennsylvania’s storm and sewage treatment infrastructure, 3 Rivers Wet Weather, Inc., and the Community Foundation of Fayette County, received $600,000 and $45,000, respectively.

To help philanthropic dollars stretch further, the Trustees supported The Pittsburgh Foundation and the Community Foundation of Westmoreland County in their exploration of shared back-office functions. Ultimately, this has led to a formal merger of the two organizations.

**Education**

A priority throughout the 62-year history of the Foundation, broad-based education is crucial for functioning successfully in the 21st century economy. The Foundation made 30 grants totaling $15,467,000. Several local institutions of higher education received support including the Community College of Allegheny County Educational Foundation—$75,000 for the nursing program.

Other gifts were made to parochial and independent schools, and the Foundation’s college scholarship program, funded through the Negro Educational Emergency Drive (NEED), received support of $2 million. The largest grant, $9 million, was for The Pittsburgh Promise, a scholarship program available to Pittsburgh Public Schools’ graduates for attendance at accredited post-secondary institutions within the Commonwealth of Pennsylvania.

**Human Services and Nonprofit Capacity Building**

The Foundation made 29 grants totaling $6,408,000 to intermediary organizations and direct service providers addressing basic needs—food, shelter, and clothing—as well as toward efforts to redesign or improve service delivery. NeighborWorks® Western Pennsylvania was provided a grant of $320,000. The Greater Pittsburgh Community Food Bank received $150,000, and the United Way of Westmoreland County received $180,000 to support the merger of the Chestnut Ridge and Westmoreland Chapters of the American Red Cross.

2009 Annual Report
Children, Youth, and Young Adults
The Foundation supports institutions and programs that address the physical and emotional needs of children and help them prepare for adulthood. The Foundation made 31 grants totaling $5,413,030 for initiatives ranging from after-school programs, vocational and job training, and children’s health initiatives. The Pittsburgh Project, serving North Side families, received $1 million. The Challenge Program, Inc., in Johnstown, received $130,000 to introduce high school students to job opportunities in the energy sector. Children’s Hospital of Pittsburgh Foundation received a gift of $100,000, and The Children’s Institute of Pittsburgh was provided $600,000 toward autism research.

Conservation
The Trustees believe that the protection of land and natural resources is fundamental to the health and livelihood of western Pennsylvanians and the nation and that investment in sustainable practices of natural-resources management will provide long-term economic benefits. In 2009 the Foundation made 44 grants totaling $14,289,280 to protect and restore watersheds, natural habitats, and land in western Pennsylvania and to protect property of national significance in other states. Among the twelve grants made to improve watershed quality were three totaling $313,000 to Mountain Watershed Association, Inc., for remediating acid mine drainage in Westmoreland and Fayette Counties. The National Audubon Society received $150,000 in support of its Important Bird Areas Program. A grant of $3,750,600 was made to The Western Pennsylvania Conservancy for the acquisition of land in Clearfield County. Through a grant of $2,500,000 to The Conservation Fund, the Foundation continued its multiyear pledge, begun in 2007, to preserve the habitat and ranching tradition of 220,000 acres of the Rocky Mountain Front in Montana.

Transitions
Over the course of the year, the Trustees engaged in a comprehensive review of the Foundation’s grant making priorities. Recent and long-term grant making was reviewed, and experts from a cross section of specialties were consulted. We emerged from these sessions with policies that will, beginning January 1, 2010, guide the Foundation’s grant making over the next five years.

After serving as a Trustee since 1965 and as Chairman since 1981, my brother, Richard P. Mellon, retired in 2009. He was only the second Chairman in the Foundation’s history, succeeding our mother, Constance Prosser Mellon, who chaired the Foundation since its inception in 1947 until her death in 1980. I am honored to succeed my brother as Chairman, and I am pleased to announce that the Trustees have elected his son, Richard A. Mellon, the oldest of the next generation of the Mellon family Trustees, as President of the Foundation.

In recognition of Richard P. Mellon’s service, he has been named a Trustee Emeritus. As Chairman, he guided grant making that helped transform Pittsburgh into an important center of research, education, and healthcare, through strategic gifts to Carnegie Mellon University, the University of Pittsburgh, and the University of Pittsburgh Medical Center and for such programs as the Pittsburgh Life Sciences Greenhouse.

The Trustees also salute his bold commitment to conservation, particularly through the American Land Conservation Program, which provided over $410 million in grants to preserve 190 remarkable properties in all 50 states.

It has been extremely gratifying to work alongside him and our other Trustees in efforts to improve the lives of people throughout western Pennsylvania.

Seward Prosser Mellon
Chairman
The Urban Core: Downtown and Hill District

Many civic agencies contribute to strengthening Pittsburgh’s urban core. The Pittsburgh Downtown Partnership and the Hill House Economic Development Corporation, affiliated with the Hill House Association, have taken on multiple planning, marketing, and development initiatives for Downtown and the Hill, respectively. The Pittsburgh Central Keystone Innovation Zone, established in 2007 by Duquesne University, is working to attract new companies to designated commercial corridors in the Hill District, Uptown, Downtown, Southside, and the North Shore by providing tax incentives, grants, and business development services. Today 26 companies with 142 employees and gross revenues of $11 million collectively occupy this zone, which ranks second in tax credits issued among 29 zones across the state.

Public open spaces are an integral part of all great urban centers, and constant use over time necessitates a periodic overhaul. The Pittsburgh Parks Conservancy has taken on the task of restoring Downtown’s heavily trafficked Mellon Square, along with creating a long-term maintenance fund for this architecturally significant Modernist structure.

A new and exciting Downtown landmark that honors Pittsburgh’s diverse history and achievement is the August Wilson Center for African American Culture. Named for the Pittsburgh-born, two-time Pulitzer Prize winning playwright, the LEED-certified complex opened in September 2009. The world-class cultural center celebrates the contributions of African Americans within the region through visual arts, performing arts, community, and education programs.

The Pittsburgh Urban Core
The Hill House Economic Development Corporation is leading an effort to bring a full-service grocery store to the Hill District. In addition to providing $1 million in tax credits and grants in 2009 to zone businesses, the Pittsburgh Central Keystone Innovation Zone placed 25 college interns with companies in the zone.

The August Wilson Center, designed by Allison Williams, FAIA, of Perkins+Will, makes use of the solar orientation of its triangular urban site. The facility includes a 486-seat theater, galleries, classrooms, gift shop, and café.

Named in 2008 one of ten Great Public Spaces in America by the American Planning Association, Mellon Square, completed in 1955, is the oldest surviving public space above a parking garage. The square’s use of tree and bush planters are a forerunner of today’s green roof designs, providing pervious surfaces to absorb water and decrease polluted runoff. (above)

The Pittsburgh Downtown Partnership has led an initiative to encourage downtown living with a long-term goal of having approximately 15,000 residents. Since 2001 residency has grown from 3,300 to more than 5,300. Including students, the population is over 8,000. (left)
Creating New and Expanding Existing Businesses

Pittsburgh’s progress in growing and diversifying its economy has been facilitated by initiatives to develop new companies arising out of institutional and industrial innovation and research, and programs designed to help existing companies expand.

The Idea Foundry helps create new companies by working with over one hundred new business concepts and from among those, identifying eight to ten each year to receive business development assistance and financial resources. Since its inception in 2002, the Idea Foundry has invested in 60 start-ups with a combined employee roster of over 400. Many now generate revenues in the $1 million to $5 million range. Some examples include the following.

Fossil Free Fuel, LLC, designs and manufactures fuel systems that enable diesel engines to operate on clean burning, renewable, plant-based fuels. The company is working with a number of commercial clients to implement its technology.

ClearCount Medical Solutions produces SmartSponge and SmartWand-DTX systems for counting and detecting surgical sponges before, during, and after medical operations.

Fossil Free Fuel’s FFF-G2 is a bolt-on, modular fuel conversion system built specifically for agricultural, commercial, and industrial users. It is capable of operating with algae oil, vegetable oils, and all blends of biodiesel.

The NCDMM helped Shorts Tool and Manufacturing obtain its HUB Zone certification and is now working with this Crawford County tooling and machining manufacturer to expand its customer base.

One of the core programs of the National Center for Defense Manufacturing & Machining (NCDMM) is its small shop initiative, which is designed to help smaller manufacturers compete for United States Department of Defense contracts. The NCDMM works closely with the federal Small Business Administration and small manufacturing firms to promote the Historically Underutilized Business (HUB) Zone program and guide small businesses through the HUB Zone certification process. Only 3.5 percent of the almost 14,000 certified companies are located in Pennsylvania, but since this project received funding, three Pennsylvania companies have been certified, four more are being reviewed and 37 are potential candidates.
Vital to fostering creativity and healthy living, cultural amenities and outdoor recreation need to be sustained through economically challenging times. Even in a financial downturn, these quality-of-life advantages remain a stable draw for tourism and are an important resource for workforce retention and recruitment.

At Carnegie Institute’s Art and Natural History Museums, 300,000 visitors each year enjoy world-class art objects and one of the nation’s finest dinosaur collections. The Frick Art & Historical Center, located in a picturesque five-acre setting of lawns and gardens in Pittsburgh’s East End, offers its 125,000 annual visitors a glimpse into the lifestyle of industrialist and art collector Henry Clay Frick. The Westmoreland Museum of American Art in Greensburg welcomes 21,000 visitors annually to its collections and exhibitions depicting American heritage (1750–1950), particularly that of southwestern Pennsylvania. Entrusted to the Western Pennsylvania Conservancy by the Kaufmann family in 1963, Frank Lloyd Wright’s world-famous Fallingwater, in Fayette County, draws over 160,000 visitors per year.

Western Pennsylvania’s rivers, trails, parks, and forests have become the focus of a campaign led by Sustainable Pittsburgh to encourage more of the region’s young people to take part in activities such as hiking and cycling. To highlight the region’s many outdoor amenities, Sustainable Pittsburgh, together with groups including Venture Outdoors and the Student Conservation Association, Inc., sponsor Great Outdoors Week, which includes a variety of sports and recreational activities designed to encourage healthy living and environmental stewardship and Walls Are Bad, an ongoing media campaign and website that connects people to the many ways they can engage in the outdoors. Annually this effort attracts close to 15,000 participants, 5,000 of whom are high school, college, and university students.

The Carnegie Museum of Art has created an online archive of more than 60,000 works of acclaimed photographer Charles “Teenie” Harris (1909–1998) who photographed the daily lives of African-Americans for The Pittsburgh Courier for over 40 years. To publicize the archive, a retrospective exhibition of his original photographs will open here in 2011 and then travel to several museums nationwide. (above)

Most of the region’s cultural assets draw between 15 and 50 percent of their visitation from out of state; Fallingwater’s exceeds 70 percent.

Regional Economic Development

Cultural and Recreational Tourism

Born of Fire: The Valley of Work. This exhibition, portraying southwestern Pennsylvania’s industrial heritage, opened at the Westmoreland Museum of American Art in 2006, and when it closes in Germany in November 2010, it will have been seen by 33,000 visitors at four European venues.

Promoted through Sustainable Pittsburgh’s Walls Are Bad campaign, Venture Outdoors organizes many bike tours around the region including the one shown here of Downtown’s and the North Shore’s history and architecture.

The Frick Art & Historical Center offers many interdisciplinary learning experiences for children, families, and teachers.

The Carnegie Museum of Art has created an online archive of more than 60,000 works of acclaimed photographer Charles “Teenie” Harris (1909–1998) who photographed the daily lives of African-Americans for The Pittsburgh Courier for over 40 years. Grant Summary

3 Rivers Wet Weather, Inc.
Pittsburgh, PA
$600,000 toward two-year support of the development of a cost-effective management model for the Allegheny County sewer system

African American Chamber Foundation of Western Pennsylvania
Pittsburgh, PA
$200,000 toward two years of general operations

Allegheny Conference on Community Development
Pittsburgh, PA
$390,000 toward general operations

Allegheny-Singer Research Institute
Pittsburgh, PA
$280,000 toward costs associated with testing the removal of toxic heavy metals from fluid emanating from use of the hydraulic-fracturing drilling method for natural gas

Asian American Film Festival of Pittsburgh
Pittsburgh, PA
$50,000 toward the 2009 Film Festival to be held May 8–17

Associated Artists of Pittsburgh
Pittsburgh, PA
$50,000 to stimulate an influx of artists, collectors, and cultural tourists to Pittsburgh

August Wilson Center for African American Culture
Pittsburgh, PA
$60,000 toward the search for a new executive director

Blueroof Technologies, Inc.
McKeesport, PA
$150,000 to establish a proving ground for quality-of-life and green technology

Borough of Smethport
Smethport, PA
$50,000 to develop a comprehensive business plan and engineering feasibility assessment for the woody biomass, renewable energy, combined heat, and power project

Bridgehead Capital
Pittsburgh, PA
$185,000 toward expansion of the Beyond Bricks and Mortar Program to educate nonprofits about real estate strategies and options

City of Asylum Pittsburgh’s fifth annual Jazz Poetry Concert featured performances by jazz masters, Trio 3 + Geri Allen, and poets from seven countries. The audience stretched hundreds of feet down this narrow North Side alley, past a series of houses developed by City of Asylum Pittsburgh as homes for writers exiled under threat of persecution.

Carnegie Institute
Pittsburgh, PA
$50,000 toward an educational exhibition of man’s relationship with the horse

Carnegie Mellon University
Pittsburgh, PA
$28,500 for an analysis of Pittsburgh’s city neighborhoods, performed by Carnegie Mellon University’s Remaking Cities Institute

Children’s Museum of Pittsburgh
Pittsburgh, PA
$350,000 toward support of general operations

City of Asylum Pittsburgh
Pittsburgh, PA
$100,000 toward operating costs associated with the pre-construction phase of renovations to the Center for the Literary Arts

City Theatre Company, Inc.
Pittsburgh, PA
$100,000 toward general operations

Community Foundation of Fayette County
Uniontown, PA
$100,000 toward renovation of the First United Methodist Church of Pittsburgh

Frink Art & Historical Center
Pittsburgh, PA
$75,000 toward general operations

The Georgia Trust for Historic Preservation
Atlanta, GA
$30,000 toward support of operations

In September of 2009, Pittsburgh hosted officials from the “Group of 20” leading international economies—19 countries and the European Union. The Allegheny Conference on Community Development was one of the principal local organizers for the G-20 Summit, whose meetings and events took place throughout the city at venues such as Phipps Conservatory and Botanical Gardens.

Grantmakers for Effective Organizations
Washington, DC
$8,000 toward 2009 membership

Grantmakers of Western Pennsylvania
Pittsburgh, PA
$20,000 toward 2009 membership

Grow Pittsburgh
Pittsburgh, PA
$50,000 toward the development and staffing of Braddock Farm

Historic Society of Western Pennsylvania
Pittsburgh, PA
$350,000 toward general operations

Independent Sector
Washington, DC
$17,500 toward 2009 membership

Leadership Pittsburgh
Pittsburgh, PA
$17,500 toward development of a professional, interactive human service experience DVD

Ligonier Valley Rail Road Association
Ligonier, PA
$30,000 toward support of operations

$16,770,500

Regional Economic Development

City of Asylum Pittsburgh
Regional Economic Development

Manchester Craftsmen’s Guild
Pittsburgh, PA
$325,000 toward support of general operations and critical equipment upgrades

The Mattress Factory, Ltd.
Pittsburgh, PA
$250,000 toward support of general operations and to help achieve financial stability

Minority and Women Educated Labor Agency
Pittsburgh, PA
$350,000: $300,000 toward general operations and $50,000 for ongoing consulting and mentoring services through Bridgeway Capital
$250,000 toward general operations

Mount Airy Baptist Church
Newton, GA
$700,000 toward construction of a new church

National Center for Defense Manufacturing & Machining
Laurelton, PA
$100,000 to assist manufacturers in obtaining government contracts

Neighbors in the Strip
Pittsburgh, PA
$150,000 toward two-year support of construction of a public market in the Strip District’s historic produce buildings

Northside Leadership Conference
Pittsburgh, PA
$250,000 toward restoration of the farmers’ market section of Allegheny Commons Park including lighting, trees, paths, and pedestrian amenities

Oakland Planning and Development Corporation
Pittsburgh, PA
$85,000 toward Innovation Oakland, a program that includes pedestrian signage, historical markers, and a digital kiosk system

The Pennsylvania State University
University Park, PA
$40,000 to conduct an engineering analysis and the redesign of facilities for the SouthWest Regional Renewable Energy Incubator

$40,000 to develop a business plan for BioEnergy Bridge, a university and industry partnership formed to address the need for integrated research and technology development in the area of bioenergy research, development, and deployment

$600,000 toward two-year support of operations and research and development of BioEnergy Bridge

Manchester Opera's home in the Strip District includes a 3,600-square-foot “black box” performance space, rehearsal, wardrobe, and costume space, a library, individual studios for vocal and instrument practice, and administrative offices. (far left) Frank Poreta portrays Sampson in Pittsburgh Opera’s production of Samson & Dalila by Camille Saint-Saëns. (r/t)

Kayak Pittsburgh is a project of Venture Outdoors. Located under the Roberto Clemente Bridge, the group rents flat-water kayaks and organizes excursions on Pittsburgh’s three rivers.

In 2009 the Pennsylvania Department of Environmental Protection issued 1,984 permits for Marcellus Shale wells. Each well requires between two and nine million gallons of water for hydrofracturing to facilitate gas extraction. The Allegheny-Singer Research Institute is investigating ways to purify this water after its use.

Philanthropy Roundtable
Washington, DC
$24,000 toward philanthropic efforts in Pennsylvania

Pittsburgh Ballet Theatre, Inc.
Pittsburgh, PA
$300,000 toward support of general operations

Pittsburgh Council for International Visitors
Pittsburgh, PA
$100,000 toward three-year support of efforts to develop a self-sustaining and expanded promotional and visitor program for Global Pittsburgh

Pittsburgh Downtown Partnership
Pittsburgh, PA
$10,000 to launch a program to activate 28 to 32 vacant storefronts in Downtown Pittsburgh

$200,000 toward the 2010 Downtown Living Initiative

Pittsburgh Filmmakers
Pittsburgh, PA
$150,000 toward support of general operations

$5,000 toward promotional and educational materials for the film Rachel Is…

The Pittsburgh Foundation
Pittsburgh, PA
$100,000 toward a public education campaign on the City-County consolidation efforts

$60,000 toward an integrated strategic alliance between the Community Foundation of Westmoreland County and The Pittsburgh Foundation

Pittsburgh Gateways Corporation
Pittsburgh, PA
$273,000 toward support of programming for America’s Music Crossroads Center

$332,000 program-related investment in the Energy and Carbon Credit Aggregation Program

Pittsburgh Glass Center, Inc.
Pittsburgh, PA
$75,000 toward general operations and a new boiler

Pittsburgh Opera, Inc.
Pittsburgh, PA
$500,000 toward general operations

Pittsburgh Parks Conservancy
Pittsburgh, PA
$1,500,000 toward the restoration and maintenance of Mellon Square in Downtown Pittsburgh

Pittsburgh Partnership for Neighborhood Development
Pittsburgh, PA
$150,000 toward community development activities in Pittsburgh neighborhoods

The Pittsburgh Public Theater Corporation
Pittsburgh, PA
$150,000 toward audience development and general operations

Pittsburgh Symphony, Inc.
Pittsburgh, PA
$350,000 toward general operations

The Pittsburgh Trust for Cultural Resources
Pittsburgh, PA
$50,000 toward support of events marking The Pittsburgh Cultural Trust’s 25th anniversary

$50,000 toward support of the Festival of Lights to coincide with the G-20 Summit

$20,000 toward support of First Night 2010

The Poise Foundation
Pittsburgh, PA
$325,000 toward three years of general operations and the development of a strategy to grow the endowment

$200,000 to assist Dwelling House Savings & Loan in reaching the asset minimum requirement set by the Office of Thrift Supervision

RIDC Fund for Economic Growth
Pittsburgh, PA
$75,000 toward costs associated with updating the strategic plan and website

Riverlife
Pittsburgh, PA
$500,000 toward two years of general operations

Robert Morris University
Moon Township, PA
$25,000 for the Bayer Center for Nonprofit Management to complete a study on the impact of the economic crisis on nonprofit organizations

The Sprout Fund
Pittsburgh, PA
$200,000 toward support of general operations

The Union Project
Pittsburgh, PA
$150,000 toward execution of the transformation business plan

University of Pittsburgh, Institute of Politics
Pittsburgh, PA
$400,000 toward two-year support of the Power of 32 (counties) regional visioning process

Venture Outdoors
Pittsburgh, PA
$150,000 toward programs and general operations

Western Pennsylvania Conservancy
Pittsburgh, PA
$175,000 toward design, engineering, cost estimating, and permitting for on-site parking upgrades at Fallingwater

Westmoreland Museum of Art
d/b/a Westmoreland Museum of American Art
Greensburg, PA
$150,000 toward the planning phase of an upcoming capital expansion project

WQED Pittsburgh
Pittsburgh, PA
$50,000 toward development of a business plan
More than ever, education is essential for successful lifetime employment. For students whose families lack the financial resources to pay for education a number of programs and institutions are working to make it possible.

The Pittsburgh Promise, a supporting organization of The Pittsburgh Foundation, has set out to raise $250 million toward scholarships for graduates of the Pittsburgh Public Schools. A partnership among the schools, the University of Pittsburgh Medical Center, and local foundations and corporations, The Pittsburgh Promise coincides with reform efforts underway in the city school system and serves as an incentive for families to live in the city. To be eligible in 2009, students needed to have a cumulative grade point average of 2.25 and an attendance record of 85 percent for their senior year. Students can use their Promise scholarships at nearly all two- or four-year degree programs offered by public and private colleges, universities, and career and technical schools in Pennsylvania.

For the past 47 years, the Negro Emergency Educational Drive (NEED) has helped 20,000 students throughout Allegheny County attend 700 colleges and universities all over the country by providing over $18 million in scholarships and assistance with living costs.

For the past 47 years, the Negro Emergency Educational Drive (NEED) has helped 20,000 students throughout Allegheny County attend 700 colleges and universities all over the country by providing over $18 million in scholarships and assistance with living costs.

Tuition for all students at Our Mother of Sorrows School in Johnstown, Pennsylvania is highly subsidized by the local parish, and the school offers many need-based scholarships for the 276 preschoolers through eighth graders enrolled. Students from seven different school districts in four counties—Cambria, Indiana, Somerset, and Westmoreland—attend the parochial school.
Education Grant Summary

The Community College of Westmoreland County, which operates in seven locations in Westmoreland, Fayette, Greene, and Indiana Counties, provides affordable access to credit and noncredit education for 19,000 students whose average age is 27. The school offers associate degrees in arts and applied science as well as diploma and certificate programs.

The Fund for Advancement of Minorities through Education (FAME) provides need-based financial assistance for African-American students, fourth through twelfth grades, to attend five Pittsburgh independent schools: Winchester Thurston School and The Ellis School and Sewickley, St. Edmund's (shown here), and Shady Side Academies. Since FAME began in 1994, the program has grown from offering five scholarships to 56 annually.

Addressing Basic Needs

Among the many organizations responding to the increased demand for assistance in 2009 was the Greater Pittsburgh Community Food Bank, Inc., that visited companies, job fairs, churches, and other human service agencies to make them aware of the many different ways it could help people severely affected by the economic downturn. Its program, Produce to People, which supplies fresh fruits and vegetables directly to families, expanded to more neighborhoods, serving between 500 and 700 families at every distribution. More than 108,000 individuals were helped by this agency and its partner agencies each month in Allegheny County and ten adjacent counties.

To help low-income families and senior citizens restore or maintain household gas, electric, and/or water service, the Dollar Energy Fund provides financial assistance as well as payment counseling, consumer education, and suggestions for energy conservation.

While southwestern Pennsylvania did not experience the dramatic increase in home foreclosures suffered in other parts of the country, the recession did bring an additional need for assistance. NeighborWorks® Western Pennsylvania took action through a coalition with four other agencies—Mon Valley Initiative; ACTION Housing, Inc.; Fair Housing Partnership; and the Urban League—by delivering to clients in crisis more efficient and effective credit counseling and homebuyer and loan product education. Working together as the Housing Counseling Collaborative, these organizations also found that they were able to expand the number of clients they served individually.

More than three million dollars in financial assistance was provided to 8,726 western Pennsylvania households in 2008–2009, an increase of 21 percent over the previous year.
Human Services and Nonprofit Capacity Building Grant Summary

The Albert Schweitzer Fellowship
Pittsburgh, PA
$100,000 toward disaster relief for families in Allegheny and Westmoreland Counties affected by the June 17, 2009, floods

Catholic Charities of the Diocese of Pittsburgh, Inc.
Pittsburgh, PA
$50,000 toward general operations, including $10,000 for the Mooncrest Children’s Program

Connect, Inc.
Charleroi, PA
$50,000 toward general operations and food purchases to meet increased demand

Dollar Energy Fund
Pittsburgh, PA
$250,000 toward general operations

Family Resources
Pittsburgh, PA
$50,000 toward expenses of the K-9 program

Greater Pittsburgh Community Food Bank
Duquesne, PA
$150,000 toward general operations and food purchases to meet increased demand

The Midwife Center for Birth and Women’s Health
Pittsburgh, PA
$100,000 to provide care to uninsured and underinsured women and infants, as part of the Midwife Center’s Beginning Campaign

The Midlife Center’s Beginning Campaign
Pittsburgh, PA
$300,000 toward support of operations

Westmoreland County Food Bank
Allison Park, PA
$10,000 toward parking lot paving

The Salvation Army
Carnegie, PA
$10,000 toward the Red Shield Campaign

Sisters of Charity of Seton Hill
Greensburg, PA
$300,000 toward construction of a water pumping facility

United Way of Allegheny County
Pittsburgh, PA
$300,000 toward the 2008 Annual Campaign programs

United Way of Westmoreland County
Greensburg, PA
$25,000 toward disaster relief for families in Westmoreland County affected by the June 17, 2009, floods

United Way of Westmoreland County
Pittsburgh, PA
$180,000 toward three-year support of the July 2009 merger of the Chestnut Ridge and Westmoreland Chapters of the American Red Cross

Urban League of Greater Pittsburgh
Pittsburgh, PA
$750,000 toward necessary relocation of corporate offices

Wesley Spectrum Services
Pittsburgh, PA
$1,500,000 program-related investment at 0% interest for six months to re-establish cash reserve depleted by the 101-day state budget approval delay

Western Pennsylvania School for the Deaf
Pittsburgh, PA
$85,000 to renovate the printing and graphics shop

Westmoreland County Food Bank, Inc.
Delmont, PA
$100,000 toward support of operations for food and staffing to meet increased demand

Westmoreland Human Opportunities, Inc.
Greensburg, PA
$300,000 toward three-year support of the Circles Initiative in western Pennsylvania using a strategy to empower people to permanently transition out of poverty

Young Women’s Christian Association of Westmoreland County
Greensburg, PA
$200,000 toward general operations

In 2009 the United Way of Allegheny County’s Impact Fund distributed grants to 64 direct human service providers throughout Allegheny County. Shown here is a volunteer from one of these agencies, North Hills Community Outreach, Inc., which operates a free winter coat shop and provides other assistance to struggling families.
The well-being of children has been a focus of the Foundation since its inception in 1947. Today many effective organizations support the needs of children in western Pennsylvania, particularly those in difficult home environments or without a home at all. Among the most significant threats to children are violence and abuse.

Located on the North Side in one of the most challenged Pittsburgh neighborhoods, where 42 percent of the children live in poverty, The Pittsburgh Project serves children and the elderly and fosters community revitalization. Kindergarteners through twelfth graders attend its after-school and summer programs, which include an academic curriculum. Its summer service camps attract several thousand students from across the country to help the elderly repair their homes.

Family Resources and Parental Stress Center are among the organizations helping families and communities prevent and treat child abuse. Family Resources, a licensed mental health outpatient facility, is the largest child abuse prevention and treatment agency in the region, while Parental Stress Center offers safe family visitation programs, in child custody cases, and family reunification services. Recognizing the opportunity to build upon one another’s core strengths and at the same time eliminate redundant overhead costs, the two organizations merged. Family Resources acquired Parental Stress Center’s services and facilities, enabling the joined organization to continue all services previously offered by both and to increase the number of families assisted.

Throughout the summer, students from around the country come to Pittsburgh and donate a week of their time repairing houses of low-income elderly homeowners.

The Pittsburgh Project’s Leaders in Training Program prepares high school students for higher education and the work environment. Students also are given college preparatory classes and jobs such as working at the Charles Street Farmers’ Market on the North Side.

Each year approximately 8,000 parents, children, and teenagers visit Family Resources’ Retreat Center where they are provided therapeutic treatment in a wooded setting of 185 acres in Cranberry Township.

Rural and Urban Watershed Protection

The Indian Creek watershed, much of which originates in Forbes State Forest and joins the Youghiogheny River at Connellsville, Pennsylvania, is the site of numerous abandoned mine discharges. Dedicated to remediating this acid mine drainage in Westmoreland and Fayette Counties is the Mountain Watershed Association, Inc. To date, four remediation projects have been completed, resulting in a reduction of acidic flows by 60 percent, and the Association has several more remediation efforts planned. Because strip-mining in the watershed continues, post-cleanup monitoring and testing for iron and aluminum will be ongoing.

Nine Mile Run is a stream that runs through Pittsburgh’s East End, and in 2006, with assistance from the Army Corps of Engineers and the City of Pittsburgh, Nine Mile Run Watershed Association, Inc., completed the restoration of its aquatic ecosystem. The improvements involved stream channel reconfiguration, wetland reconstruction, and native wildlife habitat enhancement. Today one of the 6.5-square-mile watershed’s challenges is that impermeable surfaces account for more than 25 percent of its footprint, allowing runoff to flow directly into storm drains instead of being absorbed into the ground. During wet weather, Nine Mile Run quickly floods, causing stream bank erosion, sewage overflows, and damage to the habitat. The Association projects that it can reduce the amount of rain water from flowing over hard surfaces by 11 percent through the installation of 4,000 rain barrels, each holding 133 gallons of storm water, which can be released into the soil after a storm. To date over 1,400 barrels have been installed and are being monitored by staff and volunteers to determine the effectiveness of this process.

On June 17, 2009, the East End of Pittsburgh was struck by a major storm. Gauges in the Nine Mile Watershed recorded almost five inches of rain falling between six p.m. and midnight, which caused several of Nine Mile Run’s engineered rock riffles to be blown out and boulders anchored into its banks to be dislodged. The area has been restored utilizing larger stones with better placement to ensure that future storms do not cause the same level of damage.

One of the 1,400 rain barrels that can be found at homes in the Nine Mile Run Watershed (left)
“We will be known forever by the tracks we leave.”
Proverb of the Dakota Native Americans

In Montana’s spectacular Rocky Mountain Front, a public/private partnership led by The Conservation Fund is working to protect 220,000 acres of privately owned lands and to preserve the area’s traditional ranching heritage in lieu of vacation home development. In 2007 the Richard King Mellon Foundation became a partner in this effort to leverage $100 million in public and philanthropic resources for the purchase of conservation easements and outright donations of land. Already, 15 projects have protected more than 55,000 acres of critical migratory habitat for grizzly bears and a wide variety of other species that depend on the Front’s rich ecosystem.

In 2009, as part of its working lands program, The Conservation Fund secured conservation easements for two ranches totaling almost 11,000 acres along the Rocky Mountain Front in Montana. The Young Ranch (above) is comprised of 4,723 acres of pristine native prairie that provides critical habitat for a population of 700 grizzly bears. The property also has five miles of riparian habitat along Willow Creek, a tributary of the Missouri River. The Hoon Ranch (right) is a 6,024-acre, virtually untouched, year-round habitat for wolves, wolverine, and lynx and in winter, for elk.

Here, the Western Pennsylvania Conservancy, which has protected 225,000 acres of natural lands and waterways since its founding in 1932, acquired 2,400 acres of land adjacent to Moshannon State Forest and State Game Lands #331 in Clearfield County. The property will be managed for recreation and sustainable forestry.

The Conservancy also has become the local lead on “TreeVitalize,” a statewide effort sponsored by the Pennsylvania Department of Conservation and Natural Resources to plant tens of thousands of trees primarily in urban areas throughout Pennsylvania. Working with local public and private agencies and 44 community groups, more than 4,000 trees have been planted in the last three years, and another 16,000 are scheduled to be planted by 2012. TreeVitalize has recruited nearly 500 “Tree Tenders,” citizens who are helping to plant the trees and are being trained to take care of them.

Tree Tenders plant trees in Pittsburgh’s Lawrenceville neighborhood.

Land Protection and Urban Stewardship

TreeVitalize uses guidelines developed by the Pittsburgh Shade Tree Commission. The trees planted on Parkview Avenue in Pittsburgh’s Central Oakland neighborhood, Red Jewel flowering crabapples, were selected to accommodate overhead utility lines.
Conservation

Conservation Grant Summary

Grants approved $14,289,280
Number of grants 44
Percent of grants approved 24%

Allegeny Land Trust
Sewickley, PA
$75,000 toward implementation of conservation priorities identified in the Green Print Plan

American Fisheries Society, Inc.
Bethesda, MD
$10,000 toward the National American Fisheries Society’s annual conference to be held in Pittsburgh on September 12–16, 2010

Community Foundation of Greater Johnstown
Johnstown, PA
$50,000 toward Riverwalk, a green space venue around the perimeter of the Greater Johnstown Regional Technology Complex

Conservation Consultants, Inc.
Pittsburgh, PA
$300,000 toward the creation of an energy-related public education and outreach program to be offered by the Pennsylvania Departments of Environmental Protection and Community and Economic Development and other entities

The Conservation Fund
Arlington, VA
$2,500,000 to help implement a strategy to protect and preserve the Rocky Mountain Front ecosystem

County of Allegheny
Pittsburgh, PA
$100,000 toward two-year support of the sustainability manager position for the Allegheny Green Program

Foundation for California University of Pennsylvania
California, PA
$900,080 toward three-year support of operations for Farmland Habitat Restoration and Watershed Conservation in Pennsylvania

The Foundation for California University of Pennsylvania is a member of Partners for Fish and Wildlife, a consortium of public and private agencies that promotes comprehensive water, habitat, and wildlife conservation solutions in farming areas of central and western Pennsylvania. Since 1995 the coalition has forced 375 miles of stream banks, protected over 4,000 acres of wetlands, and created over 5,800 acres of grassland and border edge cuts.

Foundation for Pennsylvania Watersheds
Alexandria, PA
$300,000 toward conservation planning and capacity building

$600,000 toward two-year support of programs to assist in abandoned mine drainage restoration, environmental planning and design, stream restoration, riparian buffer plantings, and education

Friends of the Riverfront
Pittsburgh, PA
$40,000 toward stewardship of the Three Rivers Heritage Trail and Three Rivers Water Trail

Grove City College
Grove City, PA
$50,000 toward restoration of Wolf Creek and to establish a nature trail and parklet for school and public use

Land Trust Alliance, Inc.
Washington, DC
$50,000 to develop and pilot a new assessment tool focused on federal land stewardship in western Pennsylvania and to protect conservation cemeteries

Looking Glass Institute
Pittsburgh, PA
$15,000 toward encouraging greater collaboration to enhance impact and sustainability of environmentally concerned organizations

$59,000 to access and assist eight Pittsburgh-based environmental and conservation organizations with shared services

Loyalhanna Watershed Association, Inc.
Ligonier, PA
$50,000 toward the cost of a feasibility study for the Ligonier Valley Trail System and for the construction of the Mill Creek Bridge

$40,000 toward the purchase of property in Westmoreland County

$40,000 toward general operations

Mount Washington Community Development Corporation
Pittsburgh, PA
$250,000 toward restoration and management efforts of the Grand View Scenic Byway Park

Mountain Watershed Association, Inc.
Mulitcroft, PA
$250,000 toward two-year support of restoration efforts of the Indian Creek and Jacob’s Creek watersheds

$15,000 to engage Rhiza Labs to perform an assessment of data modeling and design services for a portal website

$48,000 toward Phase II of a Rhiza Insight-powered website for the Indian Creek Watershed

National Audubon Society
Audubon, PA
$150,000 toward two-year support of the Important Bird Areas Program in western Pennsylvania and to promote citizen engagement in conservation

National Park Foundation
Washington, DC
$3,930 toward the Flight 93 Memorial Campaign 9/11 event

The Nature Conservancy, Inc.
Harrisburg, PA
$50,000 toward development of new data layers relevant to land protection strategies in western Pennsylvania

Nine Mile Run Watershed Association, Inc.
Pittsburgh, PA
$29,000 to complete repairs to Nine Mile Run, which suffered significant storm damage on June 17, 2009

Penn’s Corner Conservancy
Greensburg, PA
$100,000 toward public education for stormwater management projects currently being planned for Westmoreland County

Pennsylvania Environmental Council, Inc.
Harrisburg, PA
$75,000 to support planning to determine whether the Susquehanna River should be added to the Captain John Smith Chesapeake National Historic Trail

Pennsylvania Parks and Forests Foundation
Harrisburg, PA
$75,000 toward restoration of Stewart Place on the Green in Ohiopyle, PA

Pittsburgh Community Broadcasting Corporation
Pittsburgh, PA
$50,000 toward radio programming for three new Allegheny Front programs: Overcoming Nature Deficit Disorder, Creating a Sustainable City, and Water Management in Pennsylvania

Rachel Carson Homestead Association
Springdale, PA
$25,000 to develop Pittsburgh as a model of sustainable policies and practices and toward the preservation of Rachel Carson’s homestead

Resources Legacy Fund
Sacramento, CA
$24,750 toward costs associated with the Wingspread Conference and the development of a summary of funders information to support the Department of Interior’s ‘Treasured Landscapes Initiative’

Ruffed Grouse Society of America
Corapolis, PA
$375,000 toward purchase of property to expand the park space for the Verona Riverfront Project

Student Conservation Association, Inc.
Charleston, NH
$300,000 toward the Pittsburgh Community Programs and Green Cities Interns Corps

$325,000 to improve Pittsburgh’s quality of life through the conservation service efforts of high school members and Green Cities interns

$500,000 program-related investment to bridge timing differences in government grants for the summer employment programs

Touchstone Center for Crafts
Farmington, PA
$55,000 toward sewage facility planning to upgrade the sewage treatment system

Western Pennsylvania Conservancy
Pittsburgh, PA
$150,000 toward support of tree plantings and community education

$3,750,600 toward acquisition of property in Clearfield County

$7,000 toward travel costs associated with sending Pittsburgh stakeholders to Philadelphia to view that city’s vacant property program

Zoological Society of Pittsburgh
Pittsburgh, PA
$375,000 toward purchase and installation of a biomass burner

**Notes to Financial Statements**

### Basis of Accounting

The accompanying financial statements of the Richard King Mellon Foundation (Foundation) are prepared on the accrual basis of accounting.

### Nature of Operations

The purpose of the Foundation is to provide grants to organizations in Pittsburgh and southwestern Pennsylvania, primarily in the areas of Regional Economic Development; Education; Children, Youth, and Young Adults; and Human Services and Nonprofit Capacity Building. Its interest in the area of Conservation is national.

### Cash

Cash includes operating accounts plus domestic income cash held in bank custody accounts.

### Investments

In accordance with the authoritative guidance on fair value measurements and disclosures under Generally Accepted Accounting Principles (GAAP), the Foundation discloses the fair value of its investments in a hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These three levels of the fair value hierarchy under GAAP are as follows:

- **Level 1:** Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the Foundation has the ability to access at the measurement date.
- **Level 2:** Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not active.
- **Level 3:** Inputs that are unobservable.

### Summary of Investments

**Notes:** The accompanying notes are an integral part of these financial statements.
Notes to Financial Statements (continued)

The Foundation is subject to the authoritative guidance on accounting for uncertain income taxes issued under Generally Accepted Accounting Principles. This guidance establishes a minimum threshold for financial statement recognition of the benefit of positions taken in filing tax returns (including whether an entity is taxable in a particular jurisdiction), and requires certain expanded tax disclosures. The Foundation has recorded no uncertain tax liabilities pursuant to this guidance. The Foundation continually reviews its tax positions and such conclusions under the guidance based on factors including, but not limited to, ongoing analyses of tax laws and regulations.

Note 4: Fair Value Measurements

The following table presents the investments carried on the Statements of Financial Position by level within the valuation hierarchy as of December 31, 2009 and 2008.

Notes to Financial Statements (continued)

The Foundation has certain investments that do not have readily determinable fair values but permit direct redemption or distributions at times specified under the governing documents. As a practical expedient, the Foundation relies on the net asset value (NAV) of these investments as their fair value. The net asset values that have been provided by the investees have been derived from the fair values of the underlying investments as of the reporting date. The following table summarizes the nature of these investments and any related liquidation restrictions or other factors which may impact the ultimate value realized.

<table>
<thead>
<tr>

The Foundation evaluated all activity through May 27, 2010, the date the financial statements were available to be issued, and concluded that no subsequent events have occurred that would require recognition in the financial statements or disclosure in the Notes to Financial Statements.

Note 5: Subsequent Events

The Foundation is subject to the authoritative guidance on accounting for uncertain income taxes issued under Generally Accepted Accounting Principles. This guidance establishes a minimum threshold for financial statement recognition of the benefit of positions taken in filing tax returns (including whether an entity is taxable in a particular jurisdiction), and requires certain expanded tax disclosures. The Foundation has recorded no uncertain tax liabilities pursuant to this guidance. The Foundation continually reviews its tax positions and such conclusions under the guidance based on factors including, but not limited to, ongoing analyses of tax laws and regulations.

Report of Independent Auditors

To the Trustees of Richard King Mellon Foundation:

In our opinion, the accompanying statements of financial position and the related statements of activities and changes in net assets and of cash flows present fairly, in all material respects, the financial position of Richard King Mellon Foundation at December 31, 2009 and 2008, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Richard King Mellon Foundation’s management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The summary of investments as of December 31, 2009 and 2008 is presented for the purpose of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

May 21, 2010
Policy and Grant Guidelines

Approved in December 2009 and effective January 1, 2010, the Trustees established the following grant-making objectives and grant program priorities.

Objectives

The Foundation seeks to improve the competitive position of the region; strengthen the vitality of southwestern Pennsylvania, particularly the city of Pittsburgh and its neighborhoods; and protect precious green and natural infrastructure, particularly in western Pennsylvania.

Program Priorities

Southwestern Pennsylvania

Regional Economic Development

• University research and technology initiatives
• Initiatives promoting innovation, business diversification, local agriculture, and workforce excellence
• Urban community revitalization
• Regional cultural and recreational tourism

Education

• Colleges and universities integral to local communities
• Programs responsive to workforce market demands
• Programs designed to improve the quality of education performance
• Parochial and independent schools

Human Services and Nonprofit Capacity Building

• Programs designed to achieve holistic and broadscale outcomes
• Early childhood programs focused on school readiness
• Career-focused, after-school programs
• Capacity-building initiatives

Program Priorities (continued)

Western Pennsylvania

Conservation

• Land conservation with an emphasis on habitat protection and sustainable timber management
• Watershed protection and restoration with an emphasis on projects that are strategic
• Sustainable environments

The Foundation gives priority to projects and programs that have clearly defined outcomes and an evaluation component and has a preference for partnering with other donors on initiatives. The Foundation accepts applications throughout the year. The Foundation uses the Common Grant Application format, developed by Grantmakers of Western Pennsylvania, which may be obtained online at http://foundationcenter.org/grantmaker/rkmellon or by contacting the Foundation offices.
